

Development Process Overview

Prior to construction and opening of this facility, the same development review processes that apply to any type of development must be completed by the proponent.

This project is currently in early stages of the overall development process and the proponent is currently seeking plan amendments and rezoning of the site through two land development applications which at the time of writing are actively being reviewed by Administration and circulation partners.

The graphic below provides a high level overview of the development process in the City of Edmonton.
