

## Performance Measurement

1. A subset of the 31 Stewarding Great Neighbourhoods Indicators used to measure revitalization need			
Theme	Indicator	Result	Target
Social Vulnerability	% rent vs own; residents moving, etc.	National Household Survey, Statistics Canada, 2011	Improvement
Housing	>30% income on housing (owners/renters)		Decrease
Local Economy	New business licenses, etc.	City of Edmonton POSSE data, 2014	Increase
Parks & Open Space	Parks rating	Analysis of SLIM data, 2014	Increase
Safety	EPS/Bylaw load indicators, etc.	Edmonton Police Service, 2015	Decrease
Urban Form	Land assessment; reinvestment (permits), etc.	City of Edmonton Assessment, 2014	Increase

  

2. Measures of Social Health that are Community-led and City Supported			
Type	Indicator	Result	Target
Neighbourhood Revitalization Matching Fund	% of community members whose capacity to serve members has increased	Amount of matching funds awarded (TBD)	Increase
Abundant Community Edmonton	% of citizens with increased sense of belonging & connectedness to community	Sense of Community Index (TBD)	Increase
Building Community Through Recreation	% of community members whose capacity to serve members has increased	City Perception Survey (TBD)	Increase
Community Organizations	% of community organizations whose capacity to serve residents has increased	TBD	Increase
Family & Community Support Services	Amount of FCSS funding per neighbourhood capita	TBD	Increase

  

3. Business Improvement Area Economic Indicators <sup>1</sup>			
BIA Economic Indicator Vision	Indicator	Result	Target

  

4. Recover Edmonton's Urban Wellness Plan <sup>2</sup>			
Community Health & Wellness	Indicator	Result	Target

  

5. Other Indicators (TBD)			
Other indicators developed in the future that are relevant to neighbourhood-specific opportunities will be used for ongoing monitoring and evaluation. For example, potential opportunities may be linked to the Community Hubs Strategy (development in progress) and <i>breathe Edmonton's Green Network Strategy</i> .			

<sup>1</sup> 17 indicators developed by the Local & Emerging Economy Section in partnership with the BIAs will be presented to Council on June 18, 2018. Indicators most relevant to community development will be used for ongoing monitoring and evaluation of revitalization outcomes within Business Improvement Areas or neighbourhood commercial nodes.

<sup>2</sup> Development of an indicator dashboard is in progress. Indicators most relevant to community development will be used for ongoing monitoring and evaluation.
