Report

Bylaw 20116 proposes to amend the Zoning Bylaw from (DC2.1175) Site Specific Development Control Provision to (DC2) Site Specific Development Control Provision, as it applies to the subject site. The DC2 Provision will maintain the commercial and limited residential uses but proposes to increase the maximum height on a portion of the property from 12 m to 16 m to accommodate multi-unit housing with ground-floor commercial Uses. In addition, the proposed DC2 Provision will align separation distances for Cannabis Retail Sales and Liquor Sales with Sections 70 and 85 of the Zoning Bylaw and make a minor adjustment to the site size threshold affecting Liquor Stores. This will provide clarity, consistency, and align separation distances with how it is regulated across the City.

The proposed rezoning is in conformance with the Ellerslie Neighbourhood Structure Plan’s policy direction to support neighbourhood commercial development along major roadways and aligns with *CityPlan*.
