Debt Update - December 31, 2021

Municipal Government Act Debt & Debt Servicing Limits

The Municipal Government Act (MGA) and related regulations establish limits for municipal debt levels to two times revenue and annual debt servicing costs to 35 per cent of revenue. The following provides an update on the City's compliance with the Municipal Government Act debt and debt servicing limits. Forecasted debt in the following charts is based on currently approved debt projects.

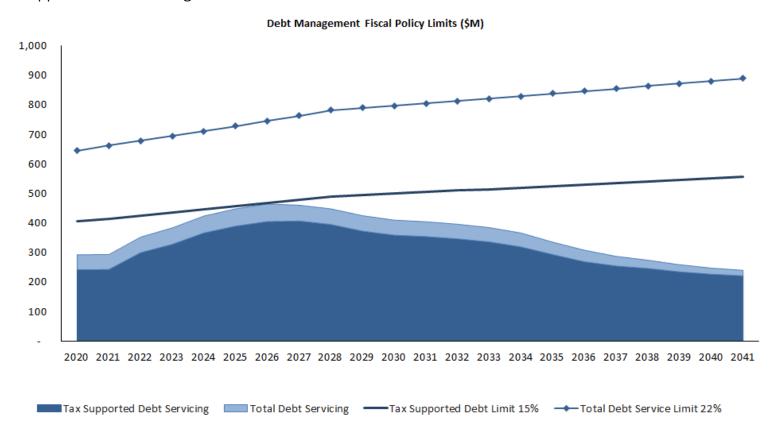

Total projected debt peaks in 2025 at \$4.92 billion primarily due to matching funding from other orders of government for large transit and road projects such as Valley Line LRT, Valle Line West and Yellowhead Trail Freeway Conversion projects.

Debt Management Fiscal Policy Debt Servicing Limits

The Debt Management Fiscal Policy (DMFP) - C203C sets more conservative debt service limits than those established in the MGA, with limits for all City operations and tax-supported operations. DMFP limits in the table below are 22 per cent of City revenues for total debt servicing and 15 per cent of tax levy revenues for tax-supported debt servicing.

The City borrows almost exclusively through the Government of Alberta's Treasury Board and Finance (TBF), formerly known as Alberta Capital Finance Authority (ACFA). TBF maintains a credit review process for borrowers who:

- i) have exceeded borrowing limits established under the Municipal Government Act,
- ii) are within 25 per cent of the limit established under the Municipal Government Act and have a credit rating less than "A", or
- iii) are considered to be in financial difficulty.

Based on the criteria, the City considers debt and debt servicing risk to be elevated when they are within 25 per cent, or have exceeded 75 per cent, of the debt and debt servicing limits established under the Municipal Government Act. The City may not fall under the credit review process when exceeding 75 per cent of the limits as the credit rating is currently higher than an A rating.

The interest rate on 20 year debentures borrowed on December 15, 2021 was 3.270 per cent, up 1.186 per cent from 2.084 per cent on December 15, 2020. In December 2021, the Province announced new loan pricing for local authorities, which includes an increase of approximately 0.5 per cent to 0.75 per cent over rates the City received in the past.

Debt and Debt Servicing Update - December 31, 2021

The following table provides a breakdown of the borrowing by quarter, as well as outstanding debt and debt servicing compared to both the MGA and DMFP debt limits.

Borrowing 2021 Dec 31, 2021 (millions)

Notes:

1) Long-Term Tax Supported Debt debt is issued to fund capital expenditures for tax-supported operations funded by tax levy revenues.

Self-Supporting Tax Guaranteed debt is issued to fund capital expenditures for tax-supported operations, with the debt obligation being repaid through other non-tax-levy revenue sources. Any funding shortfall to repay the debt will be funded through tax-levy revenues. Other Self-Supporting Tax Guaranteed debt includes debt to be repaid through user fees, reserves, property sales and community revitalization levies.

Self-Liquidating debt is issued to fund capital expenditures for programs which are self-funded, including but not limited to Utilities and local improvements.

- 2) The Municipal Government Act debt limit is calculated as two times consolidated revenues net of capital government transfers and developer contributed tangible capital assets as reported in the prior year audited financial statements.
- 3) Forecasted debt includes financing for capital projects approved by Council through the 2019-2022 Capital Budget, 2015-2018 Capital Budget and projects approved as a part of the 2012-2014 capital budget with current and future cash flows. Borrowing forecasts assume borrowing in the second and fourth quarters, using the approved term for the project and the assumed interest rates per term.
- 4) The Municipal Government Act Debt Limit Regulations state that debt servicing is the total amount of principal and interest that the municipality will be required to pay in respect of those borrowings during the 12 months after the calculation time. For purposes of monitoring compliance with the City's internal Debt Management Fiscal Policy (C203C), debt servicing is assumed to be actual debt principal and interest paid in the year.
- 5) The Municipal Government Act debt servicing limit is 35% of consolidated revenues net of capital government transfers and contributed tangible capital assets as reported in the prior year audited financial statements.
- 6) The internal Debt Management Fiscal Policy (C203C) sets more conservative debt service limits at 22% (total debt) of consolidated City revenues and 15% (tax-supported debt) of tax levy revenues as reported in the prior year audited financial statements.
- 7) Debt and debt service limits for 2022 to 2041 assume annual increases to revenue of 2% until 2029, and 1% thereafter.

The following table provides a breakdown of projected outstanding debt by major project:

| Projected Outstanding Debt Summary (\$ millions) | | | | | |
|---|-------------|-------|-------|-------------|-------|
