Race-based data collection is seeing increased uptake. The collaborative is leveraging opportunities to:

- Expand community representation, bringing more partners to the table
- Undertake e-scanning, opportunity identification, and provide modeling for best practice
- Model the ways to work with community in a sustained way to collect and use race-based data
- Move from completed strategic plan to continuous action

"EPSB and pockets of health, policing are well underway on race-based data collection- its coming in full speed ahead, this table is focusing on doing it in collaboration with community" - table member
