

Urban Planning Committee Report

Daylighting the Downstream Reach of Mill Creek – Technical Feasibility Study

Recommendation of the Committee

That the Mayor, on behalf of City Council, advocate with the Province and federal government on the potential to collaborate with the City on daylighting the downstream reach of Mill Creek including cost-sharing opportunities and funding mechanisms.

History

At the July 5, 2017, Urban Planning Committee meeting, the July 5, 2017, Sustainable Development report CR_4529 was considered. The Committee heard from A. Bolstad, B. Sander, S. Spencer, J. Geldart, C. Richmond, Sierra Club Canada Edmonton; and P. Cotterill, and the following motion was passed:

That Administration bring forward an unfunded Capital Profile for development of a master plan for daylighting the downstream reach of Mill Creek for Council's consideration during the Fall 2017 Supplementary Capital Budget Adjustment.
