

Urban Planning and Economy

**Watershed Management Update  
- North Saskatchewan River  
Regional Plan Status Update**

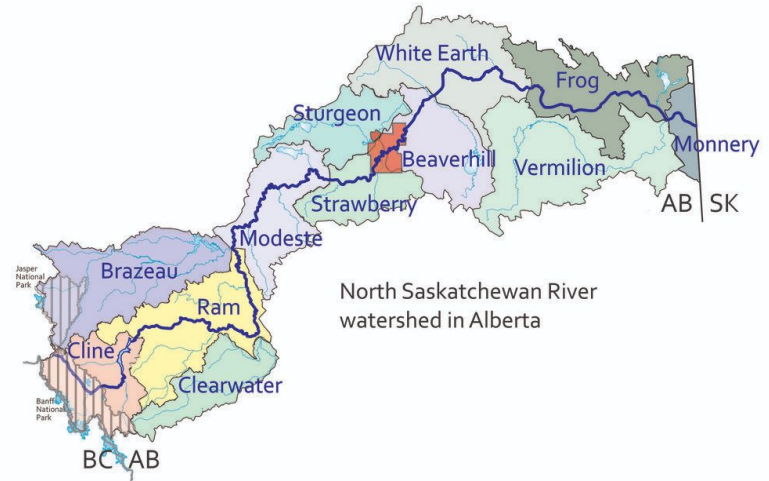

Edmonton

## Context

**HEALTHY WATERSHEDS ARE CRITICAL TO THE  
LIVEABILITY OF EDMONTON TODAY AND AS A CITY  
GROWING TO TWO MILLION PEOPLE**

# Watershed Management

- The North Saskatchewan River is currently Edmonton's only source of drinking water
- City of Edmonton has policy and strategic documents related to water and watershed management

# North Saskatchewan Regional Plan Update

- Government of Alberta began work in 2014 to develop the North Saskatchewan Regional Plan
- Release date unknown

## Next Steps

- City of Edmonton framework for watershed management
- Will not duplicate existing work
- Focus on policy gaps and municipal tools City of Edmonton can activate

# Questions and Thank You
