Report

Bylaw 20339 proposes to amend the Schonsee Neighbourhood Structure Plan by revising the text to allow for a small portion of the existing granular multi-use trail to be converted into a 3 metre wide paved shared pathway. This will allow for a continuous paved connection for people walking, rolling or cycling between 66 Street NW and Schonsee Drive NW.

This proposal aligns with the goals and policies of The City Plan by enhancing connections and accessibility for people of all ages and abilities.

All comments from civic departments or utility agencies regarding this proposal have been addressed.
