PROPOSED LAND USE

Opportunities for low rise apartments are maintained. Guidelines encourage redeveloped buildings to have underground parking and be more urban, street-fronting buildings

Guidelines encourage a central mixed use hub to support a vibrant and safe pedestrian oriented shopping street in the heart of Jasper Place, as well as around future LRT

Opportunities for a mix of uses encourage walkable amenities and a sense of safety around the existing transit centre and new LRT stations

Opportunities for ground oriented housing encourage easy access to transit and services, and provide a transition from the corridors into the neighbourhoods

Priority areas for garage and garden suits encourage improved overlook of parks and walkways

Additional opportunities for new commercial uses are limited to help maintain a vibrant Stony Plain Road

Guidelines encourage commercial buildings to front onto adjacent streets and create a more positive pedestrian experience

Guidelines encourage strong edges along key community corridors

Opportunities for more housing options are provided throughout the neighbourhoods
