Projects – 25 years.

This bylaw is required to align the borrowing authority with changes to Utility Infrastructure Projects as a result of the City’s Supplemental Capital Budget Adjustment process.

This Bylaw amendment will increase the borrowing authority by \$12,480,000 from \$359,929,000 to \$372,409,000 as a result of capital budget amendments in the Spring 2017 Supplemental Capital Budget Adjustment approved on May 9, 2017.

The overall increase in borrowing authority of \$12,480,000 is a result of the addition of one new standalone project 17-23-9806 West Jasper Place Trunk Sewer Rehabilitation with borrowing authority required of \$15,000,000. This profile was originally approved under the composite profile CM-23-9520 High Priority Repair and has now been transferred to a standalone profile. This increase is partially offset by budget reductions of \$2,520,000 in various profiles approved under the same bylaw authority.

Policy

The contents of this bylaw are compliant with the City of Edmonton’s *Debt Management Fiscal Policy (C203C)*, Master Loan Agreement between City of Edmonton and Alberta Capital Finance Authority, and applicable sections of the *Municipal Government Act*.

Corporate Outcomes

This report contributes to the corporate outcome “The City of Edmonton has sustainable and accessible infrastructure” as it provides essential funding for completion of the project.
