

Urban Planning and Economy

**Environmental Review of
City-Led Projects**

Edmonton

Background

Continually improve environmental management, including environmental reviews

Need for new decision-making processes, data and tools to advance environment and climate action

Provide decision makers with the information they need

Supporting Informed Decision Making

Implementation of Energy Transition & Climate Adaptation Strategies

First step is to add an environment and climate section into the Council Reports

- Improve data and information
- Enhance decision - making

Types of Environment Reviews

Nation leading environmental opportunities

Trusted information on environmental issues/
risks

Fundamental information related to
performance, compliance with policy and laws

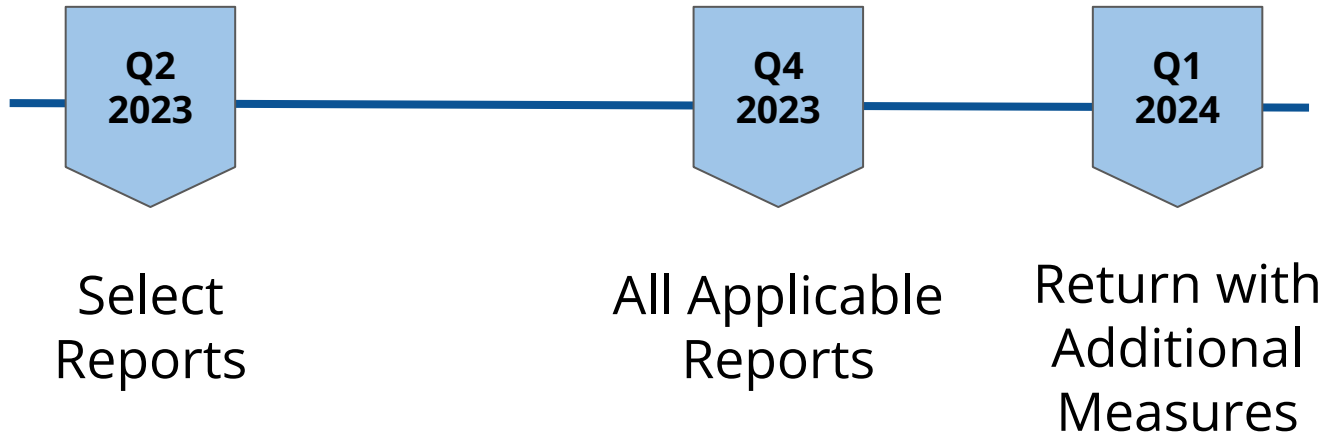

Meets set of exclusion criteria

Perspectives

I WANT TO
PRESERVE
WHAT MATTERS MOST
