- The recommendations include Multiyear Operating investments. Commitments of \$167,750 for each of 2023/2024/2025 are recommended, in support of four organizations.
- City Policy C211H, requires these recommendations be made to City Council when any one grant award within a program stream is over \$30,000. There are amounts that exceed that level in each of the streams, and this report fulfills that governance step.
- These recommendations are made in accordance with Policy C211H and are within the EAC's 2023 Budget as previously approved by City Council and the EAC Board.

REPORT

Background

- In 2021/2022 as part of the implementation of the ***Connections & Exchanges: A 10-Year Plan To Transform Arts and Heritage In Edmonton***, the EAC consolidated five programs supporting arts and festival organizations into three streams of support:
 - Multiyear Operating Investments
 - Annual Operating Investments
 - Annual Programming Grants
- Operating Investments are made in support of a not-for-profit arts or festival organization's work towards its mandate, including activities, planning and governance.
- Programming grants support the relevant activity by a not-for-profit organization that impacts communities and audiences.

Process

- One hundred and seventy-two (172) organizations submitted applications to the December 1, 2022, deadline, and were deemed eligible.
- Twenty (20) of those submissions were from organizations that had not been supported by annual funding in the recent past.
- EAC staff recruited peer assessors to review the submissions and provide feedback and advice to the EAC. Thirty-two (32) assessors participated in this work, representing a wide range of discipline-specific arts and festival knowledge, governance and management expertise, and diverse demographics including cultural and Indigenous heritage, and people with disabilities.

- The work of the assessors generated scoring, ranking, and comments on the various criteria, for each organization.
- EAC staff applied funding frameworks defined in the program guidelines, based on the work and advice of the assessors.
- The funding framework includes factors such as the assessor's scoring of impact, historical changes in support levels, equity and Indigenous participation, and *Connections & Exchanges* Aims, such as the economic resilience of arts practitioners.
- The outcomes were approved by the EAC Board at their March 8, 2023 meeting.
