Neal LaMontagne (Post Secondary Faculty Member)	May 1, 2023 to April 30, 2024
Melinda Tindall (Public Member)	May 1, 2023 to April 30, 2024

Here is a brief public introduction as provided by the appointees:

**Craig Dorward**

**Edmonton Design Committee**

Craig has nearly 20 years of experience in all aspects of architecture design and methodology. He provides valuable expertise to every project through his comprehensive academic background and a diverse portfolio, which showcases his understanding of a range of building and project types.

Craig continues to actively develop his experience in the architecture industry by engaging in a wide variety of roles and differing project types to build a comprehensive understanding of architecture through design, technology, research, and public awareness. His interest is centered on the patterns of urban development and how architecture can play a part in shaping city growth. In his spare time, Craig can be found in the garden, or on his bicycle.

**Emma Dunn**

**Edmonton Design Committee**

Emma is a dedicated design professional who has collaborated on impactful projects in Edmonton's urban core such as the NorQuest College Master Plan and Green Space, Government Centre North Plaza at the Alberta Legislature and the re-development of Paul Kane Park. Emma is passionate about community development, equitable city-making, inclusive public spaces and is excited about the great potential that Edmonton as a city holds.

### **Jonathan Monfries**

### **Edmonton Design Committee**

Jonathan has multidisciplinary education and professional experience in the development industry. A home-grown Edmontonian, he received a Bachelor's degree in Urban Planning at the University of Alberta and a Masters of Architecture at the University of Calgary. His design expertise along with his planning background has benefited numerous public and private development projects throughout Alberta as a member of Stantec's design team.

As a resident of central Edmonton, Jonathan appreciates the sustainable development of our city during a time of great transformation and opportunity in the local industry. His research passion revolves around the psychological effects of urban design and this informs his involvement in the various boards and committees he has served on. Jonathan continues to advocate for innovative urban design through his published works and presentations at events across the country, and hopes to foster local urban design excellence through his contributions on the Edmonton Design Committee.
