**Appointment:** Federation of Canadian Municipalities

**Classification:** External Agency - Intergovernmental

**Councillor(s):** Councillor Sarah Hamilton

**Reporting Period:** June 3, 2022 - April 30, 2023

### Mandate

The Federation of Canadian Municipalities (FCM) brings together more than 2,100 municipalities representing over 92 per cent of Canadians to ensure municipal and local needs are reflected in federal policies and programs. FCM has a growing track [record](#) of advocacy success with the federal government and the City of Edmonton utilizes FCM's relationships and expertise to help advance our own priorities with the federal government. In addition to the network and relationship building opportunities provided by conferences and workshops, FCM provides resources and funding to help municipal leaders build climate resilient and fiscally sustainable communities.

FCM recognizes that strengthening Canada's relationship with Indigenous peoples requires a long-term, national effort from all orders of government. Across the country, city and town councils are taking the lead in implementing the calls to action of the Truth and Reconciliation commission. FCM works with Indigenous organizations to increase collaboration between First Nations communities and neighbouring municipalities.
