### REPORT

The term "civic agencies" describes all agencies, boards, committees, commissions and task forces to which City Council makes appointments of Councillors, members of the public or other representatives to external organizations.

Council members are appointed to serve on civic agencies in accordance with Council Policy/Procedures C575D: Agencies, Boards, Committees and Commissions and as required in individual civic agency governing documents.

### Civic Agencies

Attachment 1 provides Council member appointments, sorted alphabetically by Councillor.

### Council Member Reporting

Historically, Council members reported upon their appointments at least once per year. This practice aimed to ensure awareness and coordination of advocacy and outreach activities.

If Council would like to schedule any subsequent Council member appointment reporting, direction is required.
