## Safety

We recognize the importance of safety in the workplace. We live and work in the communities we serve, therefore our obligation to the safety of our people and the environments in which they work is our top priority. We are committed to clean-site principals.

Our staff is well trained and well versed in assessing hazards and neutralizing the problems up front. We believe in staying educated about potential dangers and encourage our employees to bring attention to safety concerns. Our workplace culture emphasizes our employees as our family.
