Arterial Road Assessment

Evaluating Top Areas for Improvement
in the Developing Area

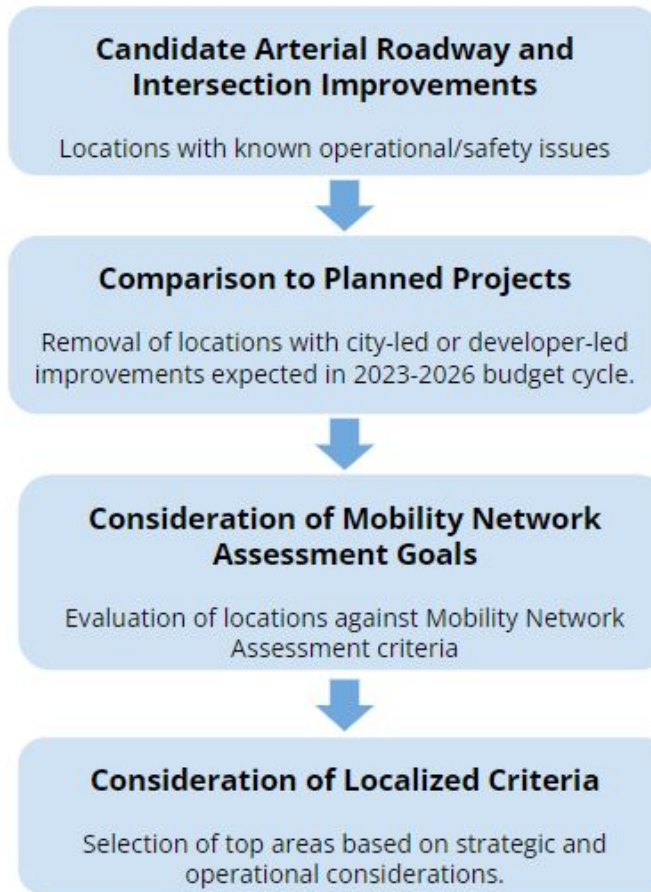

Urban Planning Committee / October 31, 2023

Background: Mobility Network Assessment

- City wide assessment of all modes of transportation
- Results of MNA presented to UPC February 2022
- Active modes and transit related improvements ranked high
- Informed 2023-2026 budget discussions

Evaluation of Arterial Roadways

"...assessment of arterial roadway/intersection improvements in developing areas that are City responsibility to identify top locations"

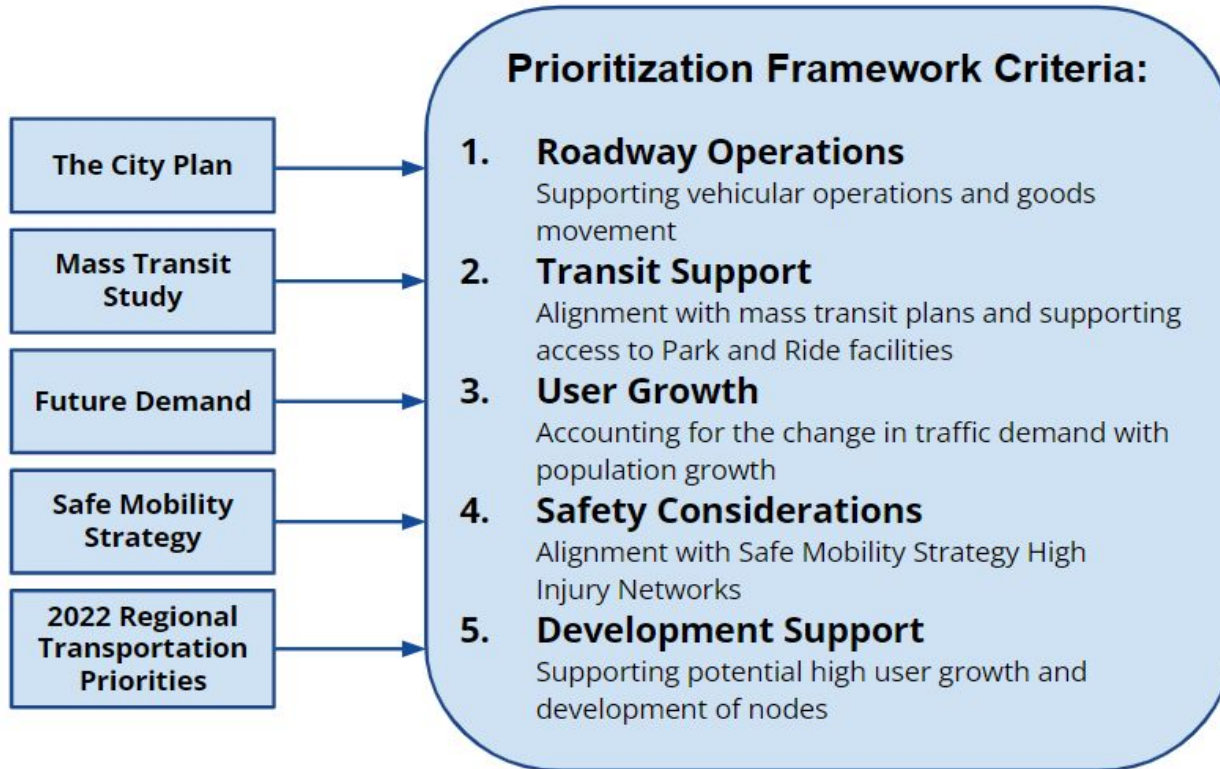

Long-term Improvements

- Large scale roadway improvements that address underlying issues

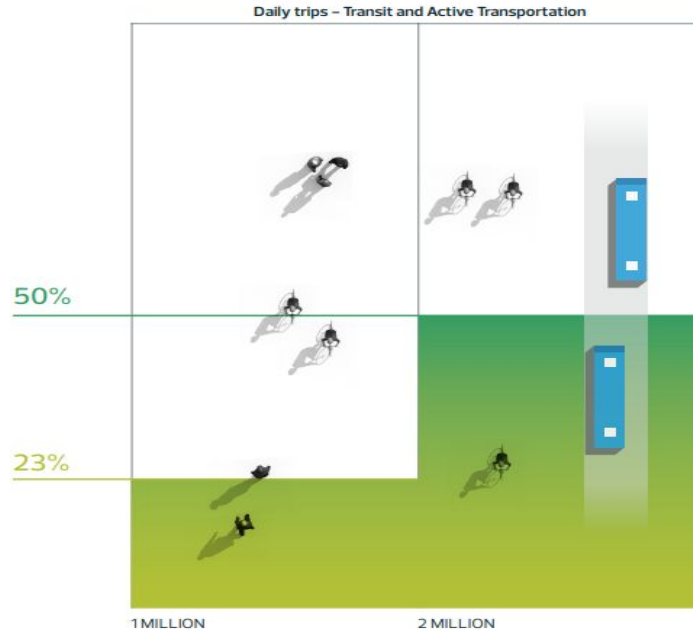

Mobility Network Assessment Criteria

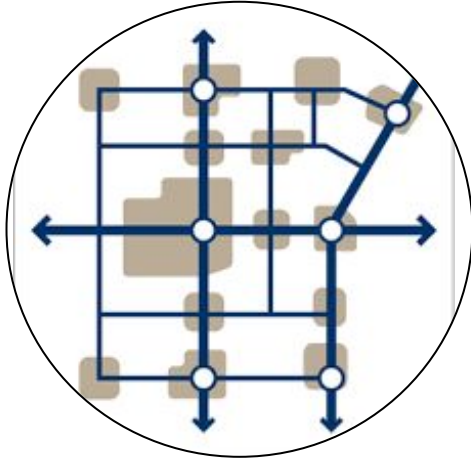

City Plan Policies

- Alignment with of policies for equitable use of resources that consider all modes of mobility

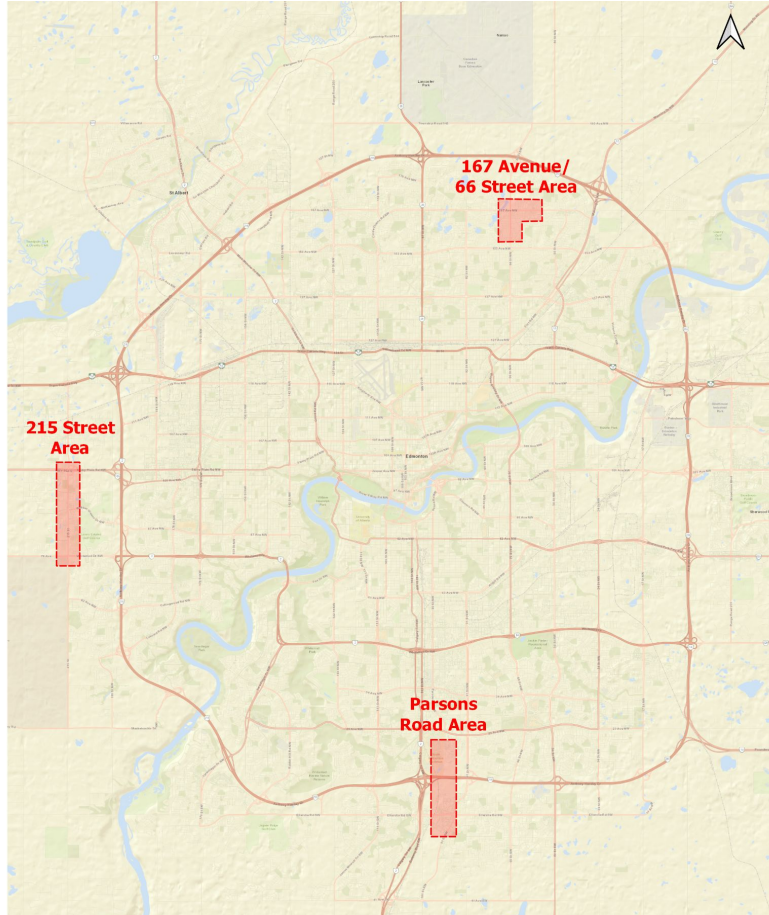

Network Improvements

→ Opportunities to improve localized network

Prioritization Results

Top Areas for Improvement

- 167 Avenue & 66 Street
- Parsons Road
- 215 Street

Next Steps

- Mobility Network Opportunities
- Update of Concept Plans
- Approach to Congestion Management

Questions and Thank You
