

Road Right-of-Way Obstruction Permit and Enforcement Data

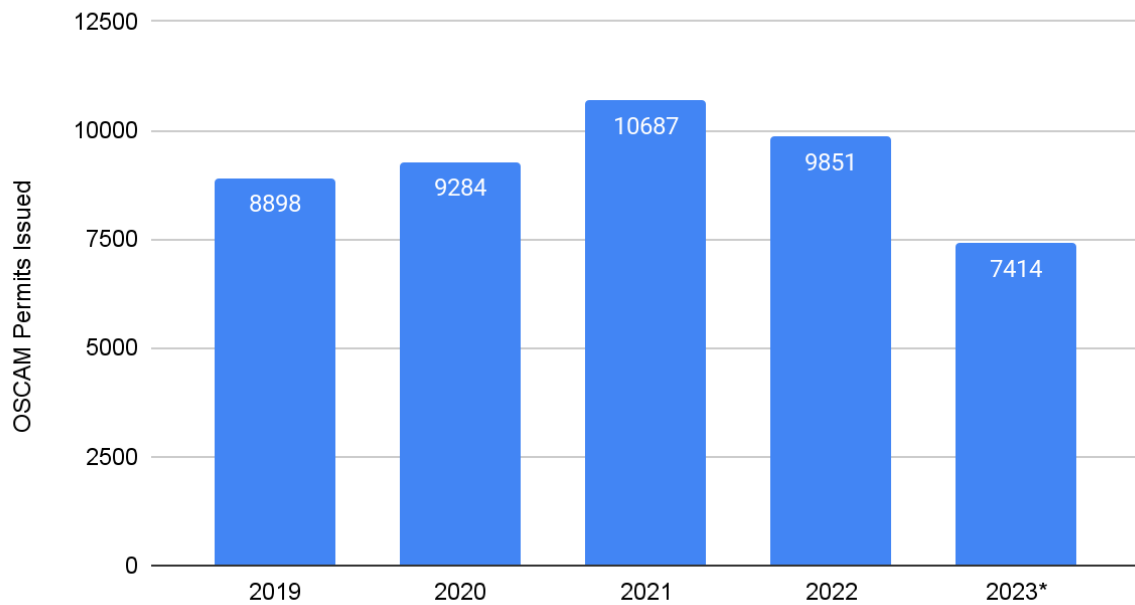

On-Street Construction and Maintenance permits are issued for construction and maintenance work on road right-of-way, including streets and sidewalks.

The introduction of a \$25 per day fee in February 2019 resulted in fewer obstruction permits being issued, and for shorter durations.

	2016-2018 Average	2019-2022 Average	% Change
Number of Permits	9,495	8,785	7.5%
Average Days	44	38	13.6%

The number of permits issued per year has remained relatively stable from 2019 to 2022, aside from an increase seen in 2021. This may be related to increased construction activity in the wake of the COVID-19 pandemic.

On-Street Construction and Maintenance Permits Issued

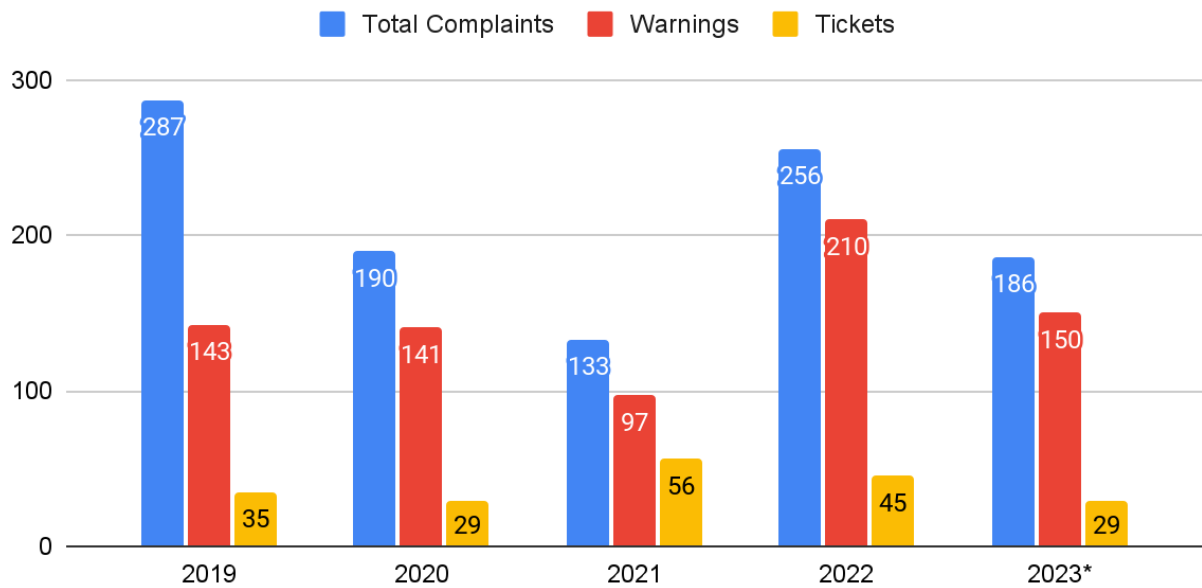

*Data as of September 18, 2023

Attachment 1

From 2019-2023 (as of September 18, 2023) Administration received a total of 1,052 road right-of-way obstruction complaints. Of those, only 194 (18 per cent) were issued violation tickets.

Complaints, Warnings and Tickets related to Bylaw 5590, Section 66 - Obstruct Highway
