Edmonton

Greener As We Grow

Target	Baseline Measurement
Two million new urban trees planted	Zero new urban trees planted (2021)
Achieve total community-wide carbon budget of 135 megatonnes	35% of the carbon budget used. Expected year when the carbon budget will be depleted: 2037 (as of 2022)
Net per-person greenhouse gas emissions are zero	26 tonnes of carbon dioxide per person (2005)

Greener As We Grow

Actions with Direct Impacts

- Climate Adaptation Strategy
- Energy Transition Strategy
- Urban Forest Management Plan

Actions with Indirect Impacts

- Investment in Active Transportation and Edmonton Transit
- Removing barriers to infill through ZBR and Growth Management

Rebuildable City

Target	Baseline Measurement
600,000 additional residents will be welcomed into the redeveloping area	811,000 current residents (2021)
50% of net new units are added through infill citywide	29% of net new units (2020-2022)

Rebuildable City

Actions with Direct Impacts

- Growth Management Framework
- Zoning Bylaw Renewal
- Blatchford and Exhibition Lands

Actions with Indirect Impacts

- Expansion of Active Transportation and Transit networks
- Economic Action Plan
- District Plans

Community of Communities

Target	Baseline Measurement
50% of trips are made by transit and active transportation	22% (2015)
15-minute communities that allow people to easily meet their daily needs	Measurement methodology under development

Community of Communities

Actions with Direct Impacts

- District Plans
- Mobility System Expansion
 - Mass Transit Network
 - Active Transportation Network

Actions with Indirect Impacts

- Removing barriers to infill through ZBR and Growth Management
- Local Business Programs and Grants

Inclusive and Compassionate

Target	Baseline Measurement
Nobody is in core housing need	14.2% of Edmontonians are in core housing need (2016)
There is no chronic or episodic homelessness in Edmonton	1,651 Edmontonians were experiencing homelessness (2021)
Less than 35% of household expenditures are spent on housing and transportation	36.7% of household expenditures spent on housing and transportation (2019)

Inclusive and Compassionate

Actions with Direct Impacts

- Community Safety and Well Being Strategy
- Affordable Housing Strategy
- Corporate Homelessness Plan
- Community Plan to Prevent and End Homelessness

Actions with Indirect Impacts

- Indigenous Framework
- Anti-Racism Strategy
- GBA+ approach for all City projects and initiatives

Catalyze and Converge

Target	Baseline Measurement
Hold 70% of total regional employment in Edmonton	75% of regional employment (2016)
Innovation corridor attracts 50,000 more jobs	Measurement methodology under development
Nodes and corridors support 50% of employment in Edmonton	Measurement methodology under development

Catalyze and Converge

Actions with Direct Impacts

- Economic Action Plan
- Regional Partnerships
- Downtown Vibrancy Strategy and Chinatown Economic Recovery Initiative
- Local Business Supports and Grants

Actions with Indirect Impacts

- Investment in the Mobility System
- Removing barriers to infill through ZBR and Growth Management
- Business Census maturity

Next Steps

- Publish baseline data on Edmonton's Open Performance Dashboard
- Develop measurement methodologies for remaining targets
- Update modelling platform to improve understanding of future scenarios
- Continue monitoring progress of strategic actions to implement The City Plan
