Closed Recommendations

Since our last report (February 29, 2024) Administration has **closed three recommendations.**

Project Name	Department	Recommendation	Original Due Date	Closed Date
1. Enterprise Performance Management	Financial and Corporate Services	Rec 3 - Regularly evaluate performance measures	March 31, 2024	March 26, 2024

On January 30, 2023, we recommended that the Service Innovation and Performance Branch Manager work with each Department Strategy Section to regularly evaluate performance measures to assess their achievement of goals.

The Branch has created guidelines for City departments that includes criteria for selecting performance measures, how to effectively report performance, and the frequency of when performance conversations should happen. They have also created a dashboard that the City departments populate, via a google form, that tracks when they held performance conversations and what measures were discussed. We have concluded that the guidelines and dashboard will aid the Department Strategy Sections in evaluating their respective department's performance measures and monitoring the achievement of their goals.

2. City's Response to 311 Requests	Financial and Corporate Services	Rec 4 - Maintain list of individuals assigned to 311 roles	March 31, 2024	March 28, 2024
------------------------------------	----------------------------------	------------------------------------------------------------	----------------	----------------

On November 14, 2023, we recommended that the Service Innovation and Performance Branch maintain a current list of individuals assigned to 311 roles.

The Branch has updated their *311 & Customer Access Service Coordinator Contact List* to include the Service Owner, Service Lead, and Service Coordinator. Each business area confirmed their service coordinator between December 2023 and March 2024. We have concluded that this list is current in assigning individuals to their 311 role.

3. City's Response to 311 Requests	Financial and Corporate Services	Rec 5 - Document status of open and closed tickets	March 31, 2024	March 28, 2024
------------------------------------	----------------------------------	----------------------------------------------------	----------------	----------------

On November 14, 2023, we recommended that the Service Innovation and Performance Branch clarify and communicate its requirements for documenting the current status of an open ticket and reasons for closing a ticket.

The Branch has clarified the requirement for the provision of status details for both open and closed tickets. Open tickets require a status update when the request has not been resolved within the established expectations or the work is planned to be completed in the future. Closed tickets do not require a status detail if it is clear to the submitter that the work has been completed. This is in conjunction with the new definition of a closed ticket, defined as a service request has been resolved and no further action is required. These requirements have been communicated to all business areas in March 2024. The new definition will also be shared publicly in September 2024 once business areas have adapted to the new definition.

Overdue Recommendations

There are nine overdue recommendations.

No recommendations are **more than one year overdue**.

Nine recommendations are **less than one year overdue**.

Project Name	Department	Recommendation	Months Overdue	Due date
1. Enforcement Services Management and Support Branch	Community Services	Rec 1 - Develop performance measures	9	June 30, 2023 Revised due date: March 30, 2024

34. Cyber Security Program	Financial and Corporate Services	Rec 5 - In private	34	December 31, 2026
35. Capital Asset Management Audit	Integrated Infrastructure Services	Rec 2 - Guide development of Asset Management Plans	46	December 31, 2027

Recommendation Follow-Up Process

BACKGROUND

Establishing a follow-up process to monitor and ensure that Administration has effectively implemented audit recommendations is an essential part of an effective audit process. It allows Council, Administration, and the Office of the City Auditor to know that prior recommendations and the risks that led to those recommendations have been addressed.

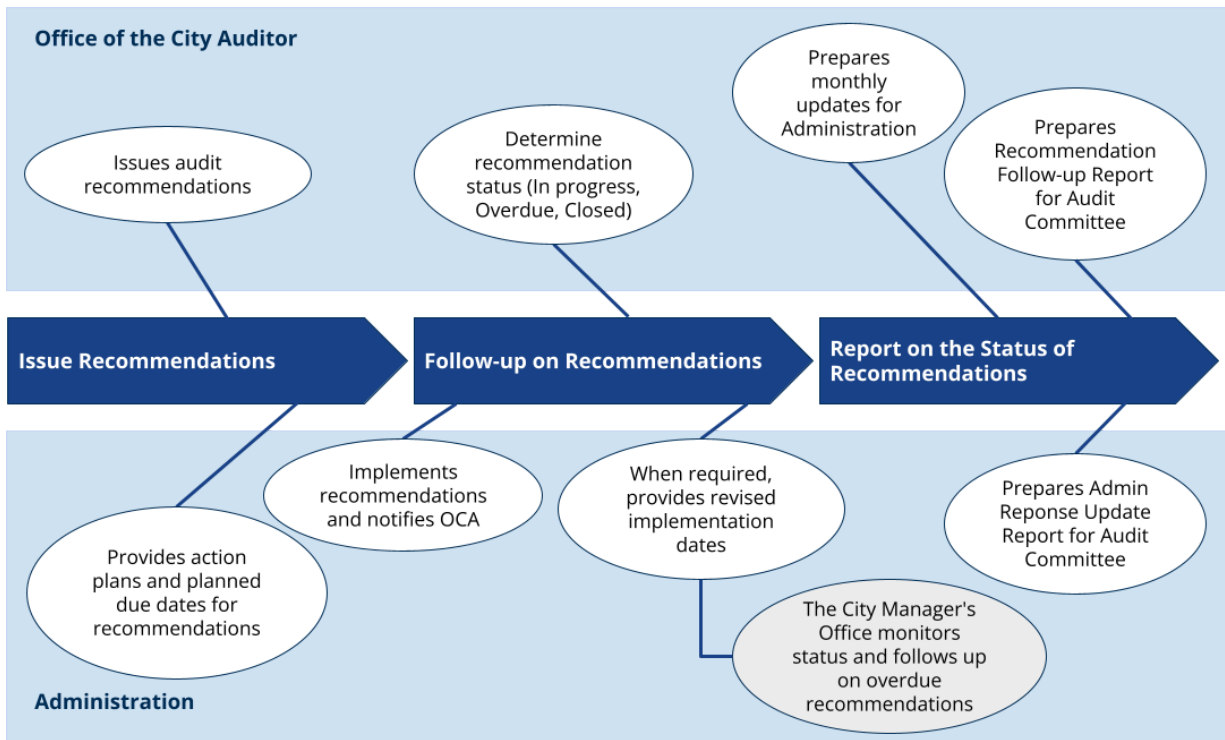

RECOMMENDATION FOLLOW-UP PROCESS

The Office of the City Auditor's follow-up process provides Council and the Administration with timely updates on commitments made in response to audit recommendations.

The recommendation follow-up process consists of three main activities:

1. Issuing recommendations
2. Following-up on recommendations
3. Reporting on the status of recommendations

The chart on the next page depicts the follow-up process and the roles of the Office of the City Auditor and Administration in the process.

REVISING ACTION PLANS AND DUE DATES

Administration sometimes needs to revise action plans and planned due dates as a result of unforeseen circumstances, such as competing priorities, changes in resources, and changes in industry requirements. We continue to track recommendation status based on the original due date, and provide the revised due date in this report.

CLOSING RECOMMENDATIONS

Once administration notifies us that they have implemented the recommendation, we interview appropriate business area staff and review documentation to evaluate administration's actions. We evaluate whether their actions have addressed the risks identified during the audit. We close the recommendation once Administration has met the intent of the recommendation.
