personal supplies, OTC medicines
& other accessories
Multi purchase deal
on 700+ items
Most competitive prices on
products (in & out)
in the neighborhood

95 STREET

Welcome

Our Request

- 1) The City Prohibit the Sale of “Restricted Knives” at locations that hold a minor or major business licence.
- 2) That the city create a separate business license for “restricted knives”, similar to that which has been created for the sale of firearms.
- 3) Similar to a firearm license, businesses wanting to obtain a license to sell “restricted knives” would have to meet requirements set out by the Edmonton Police Service, including but not limited to the following:
 - a. Limits on the number of restricted knives that can be sold to an individual
 - b. Minimum age requirement of purchaser (i.e. 18)
 - c. Purchasers providing identification that would allow the police to track the owner of a “restricted knife.”

Definition of “Restricted Knife”

- A) Any knife with finger indentations or holes in the handle to assist with gripping the knife.
- B) Any knife with a blade that has been sharpened on two or more sides
- C) Any knife with a mechanism that helps snap open the blade
- D) Any knife that has a blade in excess of two inches that folds back into the handle of the knife
- E) Any Knife that has a curved blade
- F) Any Knife that has a self-concealing blade and can be opened with one hand

"That the administration, in consultation with the Edmonton Police Commission and community stakeholders, review regulatory options and return with a plan, within three months, to restrict the sale of knives in retail stores."
