3. Government of Alberta School Accelerator Program

Current Status:

In September 2024, the province announced the School Construction Accelerator Program, which is a three-year program that will create more than 200,000 new and modernized student spaces to address Alberta’s growing enrolment pressures. The

Attachment 8

program will deliver about 50,000 new and modernized student spaces over the next three years and an additional 150,000 spaces in the four years after that.

The Alberta government will create the new student spaces by:

- building up to 90 new schools
- modernizing or replacing up to 24 existing schools
- expanding the modular classroom program
- expanding public charter school builds.

Administration will continue to analyze this announcement, and bring forward additional details about future budget requirements at future Supplemental Capital Budget Adjustments.
