Overview of Plan

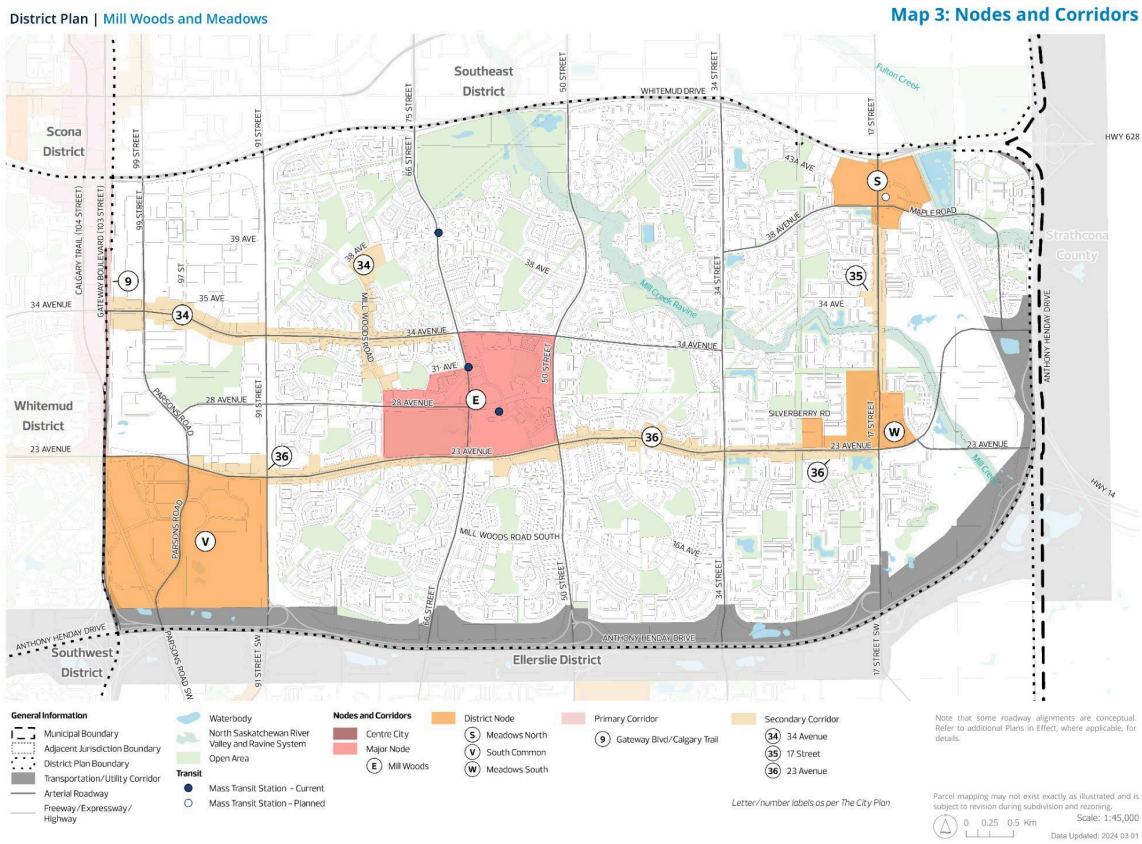

Figure 1 - Nodes and Corridors Map - Mill Woods and Meadows District

The Mill Woods and Meadows District is one of 15 districts in Edmonton’s District Network as outlined in The City Plan. Adjacent districts include Southeast, Ellerslie, Southwest, Whitemud and Scona. It includes the Mill Woods Major Node, three district nodes, one primary corridor and three secondary corridors (see Figure 1).

Notable features of this district include its commercial/industrial employment land in the west and its large residential population. It is well connected to the rest of the city, as it is bounded on

all sides by significant regional roadways and also contains three stops on the Valley Line Southeast LRT.

Table 1 provides the anticipated population and employment numbers for the Mill Woods and Meadows District at the 1.25 million and two million population horizons of The City Plan.

Table 1 - Anticipated District Population and Employment Numbers

	Federal Census 2021*	City Plan 1.25 Million Population Horizon	City Plan 2 Million Population Horizon

* 2021 figures are calculated with the 2021 Federal Census using census tract level data.

The Mill Woods and Meadows District is one of the city's most populous districts. As the city grows, the Mill Woods and Meadows District will continue to see population and employment growth through greenfield development as well as redevelopment and infill. The Mill Woods and Meadows District Plan directs the most substantial development opportunities to developing neighbourhoods, and to the nodes and corridors, such as the Mill Woods Major Node.

Plan Preparation

The City Plan was the starting point for drafting all district plans as it provided high-level direction for the Nodes and Corridors, Mobility, Open Space and Growth Activation Networks. Creation of the Mill Woods and Meadows District Plan also included a fulsome review of all plans in effect which has resulted in recommendations for plan repeals and amendments. Relevant policies from those plans proposed for repeal have been moved into the district plan's Area-Specific Policy section (see Table 2 in the Mill Woods and Meadows District Plan). For more information on the plan preparation process refer to the May 28, 2024 Urban Planning and Economy report UPE01245 Charter Bylaw 24000 - District Policy.

The public and stakeholder groups also provided input on the Mill Woods and Meadows District Plan. Administration made changes based on feedback when it:

- Aligned with The City Plan and recent Council decisions regarding land use and zoning,
- Was relevant to the plan content and subject to the authority of a land use plan, or
- Identified errors in the draft plans.

Much of the feedback received was not specific to a particular district, but applied to the District Policy or to all district plans, such as what information was shown on the maps. Of the feedback that was related to a particular district, much of it corrected minor errors and omissions.
