

# Main Streets Update to the Complete Streets Policy

TRANSPORTATION COMMITTEE | October 7, 2015

Edmonton

# Complete Streets Implementation

- Context-based approach: all Streets are Complete Streets
- Complete Streets Guidelines apply to new growth & renewal
- Implementation is currently underway
- Gap Identified: higher-priority areas requiring enhanced Complete Street treatment

Main Streets are more than transportation links.

Main Streets are, or *have potential* to be, places that support strong communities.

Main Streets tie to business and/or community revitalization.

Main Streets support a strong mix of street-oriented land uses.
