**Gorman Site:** A Case for Residential Development

# About Us

Berry Homes is a company developed and managed by our family since 2009. We design and build single-family homes in Edmonton, Spruce Grove, Leduc, and Beaumont with the utmost class and functionality. Through the continual improvement of our professional services, we ensure quality throughout the construction process and provide live-in-ready homes that inspire pride in both your family and ours. Our quality assurance policy promises an affordable home with the highest quality products for your day-to-day needs. Our concern is about you, not your wallet, so we provide the best customer service in the industry. We work hard to create the beautiful and efficient home you and your family deserve. We at Berry Homes believe in homes, not houses.
