

The Quarters Downtown Community Revitalization Levy - Financial Projections

Program Overview

City Council approved Bylaw 15800, "Schedule 'A' - The Quarters Downtown Community Revitalization Levy Plan" on June 20, 2011. The Quarters CRL provides funding for investments in public infrastructure needed to attract private investment, redevelopment and revitalization of the defined area. To date, Council has approved \$95 million in funding for The Quarters Phase I and Phase II capital projects. Note 3 below includes additional details on approved funding.

The CRL enables the City to apply both the municipal and an amount equivalent to the education tax levy to the incremental increase in assessed value over the baseline to pay debt servicing and other related infrastructure improvements. Annual program shortfalls will be transferred to the CRL reserve to be recovered through future CRL revenues.

The assessment baseline for the CRL was set on December 31, 2011. The Quarters CRL can remain in place for up to a maximum of 20 years from 2012 to 2031, unless the province specifies an earlier date.

Financial Update:

This attachment includes three sections:

- 1) Current 20 year Revenue Projections **Page 2**
Updated revenue projection, and how they compare to projections that were previously shared with Council.**

- 2) Current Revenue Projections vs. Approved Expenditures **Page 3**
A comparison of current revenue projection scenarios compared with expenditures related to approved CRL-funded projects. Includes a description of assumptions used in developing the different revenue scenarios.**

- 3) Detailed Budget Projections **Page 5**
Updated year-by-year budget projections for The Quarters Downtown CRL, based on the Low Revenue Scenario.**

Current 20 year Revenue Projections

Explanatory Notes:

- 1 Current Projection
 - The current projection for The Quarters Downtown has been revised to reflect current economic conditions and updated expenditure cash flows.
 - The projection for CRL revenue increased by \$1.0 million.
- 2 Reserve Balance
 - The \$(45.4) million shown in the reserve balance at the end of the CRL in 2031 represents the projected reserve deficit at that time combined with the remaining debt payments that continue beyond 2031.
- 3 Previous Projection
 - The previous projection reflects the projection included in the March 20, 2024 Urban Planning and Economy Report UPE02234, adjusted for actual results for the year ended December 31, 2023.
- 4 Net Change
 - From 2029 onwards (change from 2030 in previous projection), this program is projected to have an annual positive net position, which will be transferred to the CRL reserve if no further capital spending is approved.

Attachment 3

- However, this projection indicates that CRL revenues will not be sufficient to cover all outstanding principal and interest costs of the Quarters approved to date catalyst projects before expiry of the CRL in 2031. The shortfall is projected to be \$45.4 million. Ongoing municipal tax revenues that continue beyond 2031 would mitigate the remaining reserve deficit by 2036, five years after the CRL ends.
