Calculations:

97 addresses - 20 addresses (the non representative group) = **77 addresses where responses were given.**

- **71 oppose** out of 77 = $(71/77) \times 100 = 92.2\%$

- **7 others - support, were undecided, neither oppose nor support** out of 77 = $(7/77) \times 100 = 9.1\%$
