

## MOTIONS PENDING REPORT

### 10.1 Social Media Engagement (A. Paquette)

Councillor A. Paquette stated that at the next regular meeting of City Council, the following motion would be moved:

That Administration provide a report assessing the City's current engagement on social media platforms, including X, that includes the nature and frequency of posts, levels of public interaction, and any potential risks or benefits associated with continued use of these platforms, that also explores alternative communication channels that align with the City's communications needs to provide effective and timely outreach to relevant platform participants.

- Notice of Motion Given: March 5, 2025, Executive Committee
- Laid Over: March 18/19, 2025, City Council to April 8/9, 2025, City Council

### 10.2 Belgravia Neighbourhood Traffic Assessment Study (M. Janz)

Councillor M. Janz stated that at the April 8/9, 2025, City Council Meeting, the following motion would be moved:

That Administration reallocate \$100,000 from the Priority Growth Area Rezoning budget in Development Services to fund a study to undertake a traffic assessment of Belgravia neighbourhood and identify potential short-term and long-term interventions, including budget requirements, to optimize the road network and reduce short cutting.

- Notice of Motion Given: March 17, 2025, City Council Public Hearing

### 10.3 Analysis for Preservation of Small Scale Residential Development (M. Janz)

Councillor M. Janz stated that at the April 8/9, 2025, City Council meeting, the following motion would be moved:

That Administration provide a report on an analysis of a policy and regulatory approach that would result in the preservation of ten percent of the area in a neighbourhood for small scale residential development within the redeveloping areas as defined by The City Plan.

The report should review best practices related to ensuring new development incorporates:

- design compatibility with heritage character,
- housing for multi-person households (such as requirements for min numbers of bedrooms or and max bathrooms per unit; minimum average unit size; max units/ha),
- affordability, and

- environmental sustainability.

The report should recommend the most effective policy and/or regulation to achieve the above, such as the creation of a Direct Control zone, Special Area zone, expanding the boundaries of existing heritage character areas, creating design policy and/or creating policy sub-areas within the District Plans.

- Notice of Motion Given: March 17, 2025, City Council Public Hearing
