- 7.3 Parkades developed below Grade shall be permitted to be built to the property line.
- 7.4 Parkades developed below Grade adjacent to a Street are to be located sufficiently below Grade, or a suitable alternative, and shall provide a minimum of 1.2m soil depth to contribute to healthy root development.
- 7.5 Above Grade Parkades that are part of the building Podium shall be screened in a way that does not disrupt the continuity of the Street Wall, and shall be limited to no more than 12 m in Height. Screens may include, but are not limited to, public art and street fronting retail uses.
- 7.6 No portion of an above Grade Parkade shall be allowed for a minimum depth of 8.0 m from any front Facade facing a Street.
- 7.7 Vehicular access shall be provided from the Abutting Alley. Where there is no Alley parking access shall be designed to minimize disruption to the Yard, sidewalk, and existing trees.
- 7.8 Loading Spaces shall be concealed from view from adjacent Streets.
- 7.9 Waste collection and storage shall be located within the building and shall be designed to the satisfaction of the Development Planner in consultation with the City departments responsible for Waste Management and Transportation Services.

8. Landscaping, Lighting and Amenity Area Regulations

- 8.1 A Landscape plan prepared by a registered Landscape Architect, registered with the Alberta Association of Landscape Architects shall be submitted prior to the issuance of any development permit for the portion of the Site being developed, to the satisfaction of the Development Planner.
- 8.2 The Landscape plan shall include pavement materials, exterior lighting, street furniture elements, pedestrian seating area, sizes and species of new tree plantings, and other detailed landscape elements. The Landscape Plan shall include design of the adjacent public realm where applicable.
- 8.3 Landscaping within the Setback adjacent to Stony Plain Road shall be developed to provide an enhanced pedestrian experience and a public realm that seamlessly transitions from public to private property by:

SCHEDULE "I"

- 8.3.1 continuing the public sidewalk paving materials, finish, and pattern to compliment the adjacent streetscape. Soft Landscaping may be required at the discretion of the Development Planner, and
- 8.3.2 providing design measures to reduce the environmental impacts of higher level of vehicular traffic on the pedestrian experience
- 8.4 Landscaping on the Site shall consider the use of plant materials that provide color throughout the year to enhance the appearance of the development during cold weather months.
- 8.5 A minimum average Amenity Area of 7.5 m² per Dwelling shall be provided. Amenity areas may include meeting rooms, fitness facilities, outdoor space, and shall be exempt from Floor Area Ratio calculations.
- 8.6 Balconies with a minimum depth of 1.5 m may be used to satisfy required Amenity Area.
- 8.7 Non-residential or mixed-use buildings over 2000 m² shall provide Amenity Area equivalent to a minimum of 3% of the Floor Area of non-residential Uses, to a maximum of 6%. Amenity Area may include interior landscaped open spaces, arcades, atriums, plazas and gardens and shall be exempt from Floor Area Ratio calculations.
- 8.8 Decorative and security lighting shall be designed and finished in a manner consistent with the architectural theme of the development and will be provided to ensure a safe, well-lit environment for pedestrians, to ensure no negative impact on adjacent property and to accentuate architectural elements, roof tops and public art.
- 8.9 Detailed exterior lighting plans may be required for major developments at the discretion of the Development Planner.

9. Other regulations

- 9.1 A Comprehensive Sign Design Plan in accordance with the Provisions of Section 6.9.3 shall be required to the satisfaction of the Development Planner
- 9.2 A Wind Impact Statement shall be submitted with each Development Permit application for a development having a Height greater than 20.0m. At the discretion of the Development Planner, a detailed Wind Impact Study may be required to be submitted and be based on a computer model simulation analysis. A Wind Impact Statement and Wind Impact Study shall be prepared by a qualified, registered Professional Engineer, to professional standards.
- 9.3 With each Development Permit application for a building over 20 m in Height, a Sun Shadow Study shall be submitted. The Development Planner may require an applicant to revise the proposed Development to mitigate the impacts identified in the sun shadow impact study, including but not limited to, revisions to building design and Site design.
- 9.4 Site and building layouts must include design elements that take the principles of Crime Prevention Through Environmental Design (CPTED) into consideration. The Development Planner may, at their discretion, require a CPTED assessment prepared in accordance with Section 5.110 of the Zoning Bylaw to confirm this has been done to their satisfaction. The Development Planner must apply any conditions deemed necessary to the approval of the Development Permit based on the recommendations of the CPTED assessment to promote a safe physical environment.
