REPORT

The history of the borrowing bylaw is as follows:

- At the April 8, 2025, City Council meeting, Bylaw 21062 received first reading.

As part of City Operations report CO02415 Waste Services 2025 Rate Filing, presented on December 2, 2024, City Council approved a \$2.69 million funding transfer from profile CM-81-2005 Waste Containers to fund a new capital profile CM-81-2049 Greenhouse Gas Mitigation Energy Transition Portfolio. Details were included in the November 8, 2024, City Operations report, CO02507 Waste Services Climate Action Plan. Proposed projects include

retrofitting facilities to improve their efficiency, generating and incorporating more renewable energy from buildings, and investing in lower or zero-emission vehicles and infrastructure.

This budget adjustment has no net financial impact, as it reallocates existing funds. The \$2.69 million total approved budget for the new portfolio will be funded by self-liquidating debentures.

Bylaw 21062 received first reading at the April 8, 2025, City Council meeting. The petition period expired on May 5, 2025. No petitions were received, so this Bylaw may proceed.

A corresponding amendment to decrease the borrowing authority under Revised Bylaw 18734, a Bylaw to authorize the City of Edmonton to undertake, construct and finance City Operations Project, Waste Containers, will be presented to City Council at a future date.
