New Standalone Profiles Requesting Funding from Existing Approved Profiles											
4.1-1	The Dunluce Neighbourhood and Alley Renewal has completed Checkpoint 3 of the Project Development and Delivery Model and requires approval for delivery within a new standalone profile with an overall estimated cost of \$89,554,588 (Class 3 Estimate). Out of these estimated costs, \$3,062,442 has already been incurred in 2024 and prior years under capital profile "CM-25-0000 Transportation: Neighbourhoods - Renewal" for planning and design. The funding requested for this profile is from capital profile "CM-25-0000 Transportation: Neighbourhoods - Renewal" (\$16,557,835 from the 2023-2026 budget cycle), capital profile "CM-27-0000 Transportation: Neighbourhood Alley Renewal Program" (\$2,602,150 from the 2023-2026 budget cycle), capital profile "CM-40-9000 Building Great Neighbourhoods Delivery - Growth" (\$300,000 from the 2023-2026 budget cycle) and capital profile "CM-20-0330 Active Transportation Implementation Acceleration - Approach 3" (\$430,000 from the 2023-2026 budget cycle) profiles.  Neighbourhood Renewal expenditures approved for 2027 and beyond (\$66,602,161) is requested to be funded with a pre-commitment of Neighbourhood Renewal Reserve funding from the next budget cycle. This is in line with how the program has previously been managed, and results in a more effective use and cash flow of Neighbourhood Renewal Reserve funds.	25-25-9506	Dunluce Neighbourhood and Alley Renewal	IIS - Infrastructure Delivery	Local Improvements Property Share	-	1,076,426	1,076,426	1,076,426	1,076,426	4,305,703

<b>Scope Change Increases Requesting New Funding</b>											
4.2-1	Overall, this is a scope change adjustment. The Safety and Security profile funds projects in the Community Recreation and Culture branch to improve or mitigate identified safety and security challenges and improve emergency response functions within City-owned and operated public recreation, attraction and culture facilities. The branch has experienced both a significant increase in the number of incidents (more than 25 per cent) and in the severity of incidents. A large number of improvements to the facilities are required to address and mitigate the impact on the visitors, staff and the assets.  This is a formal request for \$5,000,000 Pay-As-You-Go funding to improve public safety within recreation and attractions and major event sites. These include projects such as control desk upgrades, modifications to change rooms to enhance user safety, Edmonton Police Service video surveillance initiative, integrated facility lock down systems, lockers and locking mechanisms, and ladder to staircase conversion for pools. 					Total	1,800,000	3,200,000	-	-	-	5,000,000
4.2-2	This scope change adjustment adds \$2,700,000 Pay-As-You-Go funding to capital profile "CM-99-9000 Infrastructure Delivery - Growth" to renovate KEN105 (Bldg 1 - 12810 58 St.) to support the relocation of the Community Standards Branch Manager's Office and Transit Peace Officers (TPO) staff from Century Place 3rd floor and other leased spaces to KEN105. The renovated space will provide work and training space for 140 staff. The TPO team is currently working out of the 3rd floor at Century Place, which does not have lockers or showers available. The staff are utilizing locker spaces at Kathleen Andrews Transit Garage and travelling between the two buildings each day. The relocation of the Transit Peace Officers supports the Downtown Workspace Optimization project by relocating staff from Century Place. The rationale for advancing this work ahead of the Downtown Workspace Optimization project is the immediate operational efficiencies that will be realized. 4.2-3	This is a scope change adjustment. The Edgemont Neighbourhood Park Development project has completed Checkpoint 3 of the Project Development and Delivery Model with an overall estimated cost of \$6,310,422. Of these costs, \$197,157 was incurred in 2024 and prior years. The project will be funded with a \$5,043,912 allocation in capital profile "CM-99-9000 Infrastructure Delivery - Growth", a \$14,352 Pay-As-You-Go transfer from capital profile "CM-30-3030 Open Space: Planning and Design - Growth", and additional \$805,000 Developer Financing from Brookfield Residential and \$250,000 New School Playground Fund from the Government of Alberta. 4.2-4	This scope change adjustment adds \$1,000,000 from the Cemetery Reserve to capital profile "23-30-9323 Northern Lights & South Haven Cemetery Phase 1B" for columbaria installation. The adjustment is required since the current sites in capital profile "23-30-9323 Northern Lights & South Haven Cemetery Phase 1B" are 90% pre-sold or occupied and future site expansion is necessary to meet customer needs. These sites represent an ongoing revenue stream for the City of Edmonton.	23-30-9323	Northern Lights & South Haven Cemetery Phase 1B	IIS - Building Great Neighbourhoods	Cemetery Reserve	1,000,000	-	-	-	-	1,000,000

4.2-5	This scope change adjustment funds planning and design (PDDM Checkpoints 1-3) for base level development (grade, level, seed, playground) for a future K-6 school at the Hawks Ridge school/community parks and future K-9 school at Oxford school/community park, as required under the Joint Use Agreement: Land. Capital profile "CM-30-3030 Open Space: Planning and Design - Growth" will be funded with \$300,000 and \$450,000 Pay-As-You-Go for Hawks Ridge and Oxford, respectively. The project is in response to the March 2025 provincial school accelerator funding announcement. 4.2-12	This scope change adjustment requests that the following scope be added to capital profile "25-21-1000 LRV Replacements" given market feedback received since the original capital budget approval. Requesting to add shop and building modifications to DL MacDonald LRV storage garage so that it can accommodate longer Light Rail Vehicles (LRVs). The savings from purchasing longer vehicles will be used to offset the cost in modifying DL MacDonald Garage to be able to store, maintain and repair these longer vehicles.  Background: Edmonton's current LRVs are 24.8 metres in length and currently most manufacturers do not offer vehicles in this length. Most LRVs on the market are longer in length. If the contract is awarded to a manufacturer that makes longer vehicles, the City would need to purchase fewer vehicles. For example, currently the City's station platforms can accommodate five car trains. However, if the cars are longer, only four would be needed. If the LRV length can be optimized, this would also increase overall capacity, all while reducing the number of vehicles required to replace the current fleet. Administration also wanted to increase tender competition by allowing other manufacturers to bid that make longer vehicles, and may already have a vehicle in production that meets the City's needs and design requirements. If bids are restricted to a specific length, there is a risk of having very few manufacturers show interest which could result in paying a cost premium.	25-21-1000	LRV Replacements	OPS - Edmonton Transit Service	Tax-Supported Debt	0	-	-	-	-	0

4.2-13	This scope change adjustment is required to update the estimated completion date for capital profile "19-22-9006 Terwilliger Drive Expressway Upgrades - Alternate Staging" to December 2028. In 2024, this capital profile received additional provincial grant funding that allows for the construction of the optimal interchange configuration including two new loop ramps, and a new separated pedestrian/cyclist bridge. 4.2-14	This scope change adjustment is required to update capital profile "15-21-5785 Lewis Farms Recreation Centre and Library". The direction by Administration is deferring the delivery of the west half of the Lewis Farms District Park project to allow time to undertake additional planning/design (Checkpoints 1-3) to ensure integration between school and district park development. There is no adjustment of funding or schedule at this time.  Of note, the Government of Alberta announced planned funding for 10-12 future high schools including one at the Lewis Farms District Park. Funding for planning and design for scope revisions to the District Park (in delivery) is under review with the school board partner and will be brought back for consideration in a future SCBA, if required.	15-21-5785	Lewis Farms Community Recreation Centre and Library	IIS - Infrastructure Delivery	Pay-As-You-Go	-	-	-	-	-	-

4.2-15	This scope change adjustment is for a "container-style" public washroom to be added to the Mary Burle Park Renewal project. The scope addition will include a washroom, space for an attendant and modest supply storage space. Design and construction of the washroom will be funded with existing funds approved within the composite profile "CM-20-3102 Chinatown Infrastructure Improvements". The scope change adjustment also results in an updated estimated completion date of June 30, 2026. <b>Recosting Increases Requesting New Funding</b>											
4.3-1	This recosting adjustment reallocates funding for the "23-40-9033 Ottewell Neighbourhood Reconstruction" project to align with its revised schedule and December 2027 estimated completion date. This involves a pre-commitment of \$14,334,788 in Neighbourhood Renewal funding from the next budget cycle (2027-2030). To offset this, the same amount of 2023-2026 currently approved funds are being returned to "CM-25-0000 Transportation: Neighbourhoods - Renewal". Neighbourhood renewal expenditures (\$14,334,788) approved for 2027 and beyond should be funded with a pre-commitment of neighbourhood renewal reserve funding from the next budget cycle. This is in line with how the program has previously been managed, and results in a more effective use and cash flow of Neighbourhood renewal reserve funds.	23-40-9033	Ottewell Neighbourhood Reconstruction	IIS - Building Great Neighbourhoods	Neighborhood Renewal Reserve	(10,282,223)	(4,052,565)	14,334,788	-	-	-

4.3-3	This is a recosting adjustment. The balance of the working capital allocated to capital profile "CM-17-1022 - District Park Land Acquisition (New ASPs)" for the 2023-2026 budget cycle has been committed in support of the proactive acquisition of future district park sites in advance of planned development to capitalize on lower land costs. Transferring \$4,700,000 from the Funds-in-Lieu Reserve to capital profile CM-17-1022 will ensure the City is able to respond to any land opportunities related to Riverview, Horse Hill and Decoteau district parks. 4.6-2	This is a transfer of \$6,562,196 in Pay-As-You-Go funding from capital to operating budget to fund the City's Art reserve. The transfer is from transformational capital projects and is based on the previous Public Art policy (Policy C458D Public Art to Enhance Edmonton's Public Realm). This transfer is in addition to the \$6,100,000 (2023-2026 Council approved) total transfer to the reserve (\$1,100,000 tax levy plus \$5,000,000 capital Pay-As-You-Go). PDDM Re-cashflowing Adjustments											
4.7-1	The original delivery budget for the Capital Line South LRT: Century Park to Ellerslie Road project was approved in June 2021. In order to confirm the City's contribution to the project and secure grant funding from other orders of government, capital budgets for LRT projects are brought forward for Council approval much earlier in the process than other projects delivered under the Project Development and Delivery Model (PDDM). The project has now reached what is considered to be the Checkpoint 3 equivalent of the PDDM. With a more complete understanding of scope and schedule, the project is being re-cashflowed. The end result is the Capital Line South LRT: Century Park to Ellerslie Road project will be in alignment with PDDM principles going forward, and be measured against these revised cashflows for the remainder of the delivery portion of the project. The estimated completion date for the project is being revised to August 31, 2029. This adjustment results in a \$0 impact to the overall approved project budget.	16-66-7018	Capital Line South LRT: Century Park to Ellerslie Road	IIS - LRT Expansion and Renewal	Federal - Investing in Canada Infrastructure Prgm (ICIP)	(175,786,645)	71,026,347	78,870,974	10,334,010	15,555,314	-
