

Recommend that this not be deemed essential and
recommend council not approve the EIA

Can we all work with EMBA to find a more suitable location

**Can we ask that the Bike Skills Park not come back until a trails
strategy is funded and completed.**

Trembling aspen, balsam poplar, and acer negundo are making a comeback

An aerial satellite map of a park area. The North Saskatchewan River flows along the top and right edges. A road, Queen Elizabeth Drive, runs along the bottom. To the left is Elizabeth Hill, marked with a green tree icon. In the center, there's a wooded area with a 'Picnic tables' icon (a purple camera icon) and a 'Walterdale pump station' label. The text 'The location disrupts the wildlife corridor and should step back at least 100 meters' is overlaid in white, with a white wavy line underneath it.

The location disrupts the
wildlife corridor and should
step back at least 100 meters

100.01 meters back from water is Yellow Line

Queen Elizabeth Hill
