Results of Engagements

Feedback and What We Heard The Basis for Conceptual Design Ideas

Dedicated Church Space – Focus on a dedicated church / Christian ministry space and more energy-efficient and intentionally-designed contemporary space.

Housing - Development must include a housing component, with a focus on seniors as a target group, to meet practical housing needs.

Services – Include practical services as a priority in the development.

Community Space – Have some form of community space with multi-use space available and accessible to the community. Use this space as a resource that benefits groups for gatherings, conferences or other events. Include features in a place where the community can gather and connect.

Braemar Members' Support Change

Congregational Meeting
December 1, 2024

A motion was passed
by 78% of Braemar's Members:

*That the Braemar Development Team
proceed to submit a rezoning
application to the City of Edmonton
to rezone Braemar's property as
residential use (RU) to allow for the
redevelopment of the church site at
7407 – 98 Avenue NW, Edmonton.*

Moving Forward

Communication

Our pledge is to clearly communicate
to our Congregants,
to surrounding communities,
and to interested parties
about Braemar's plans and actions
for property development
and its uses for a sustainable future,
as long as we own the property.
