

ConnectEdmonton:
Edmonton's Strategic Plan sets the direction for our future and outlines where we need to change today to realize our vision for Edmonton in 2050.

The City Plan
is about our spaces and places, and how we move around the city.

The Corporate Business Plan
maps out how the City will deliver programs, services and capital projects to Edmontonians over the next four years.

The Financial Sustainability Plan

Foundational Elements	1	2	3	4	5
	The City of Edmonton is a judicious steward of all City assets	The City of Edmonton responsibly and prudently manages its financial resources by maintaining a structurally balanced budget	The City of Edmonton has the necessary financial capacity to meet its objectives	The City of Edmonton makes decisions for today that do not compromise its financial health in the future	The City of Edmonton conducts its day-to-day business aligned with core services and its long-term strategic goals

Foundational Principles	Transparency: All financial decisions and reporting are transparent and accessible, ensuring citizens have a clear understanding of how public funds are managed and where they are allocated.				
	Public Affordability: All activities are conducted in the interest of public affordability, ensuring that municipal services and tax burdens are managed in a way that is reasonable and sustainable for residents and businesses.				
	Value for Money: Maximum benefit is obtained from every dollar spent, meaning the City is committed to efficient resource allocation, seeking the highest possible return on investment for all its initiatives and services.				
	Strategic Alignment: All business area goals and strategic objectives are aligned with the corporation's financial strategies and constraints, ensuring a cohesive approach to achieving the City's long-term vision within the City's financial capacity.				
	Intergenerational Equity: Financial decisions ensure that resources and costs are distributed across generations in proportion commensurate with use and benefits, which involves managing the costs, benefits and resources over time to create equity and fairness across generations.
