

Requests to Reschedule Reports

City Council

November 18, 2025

5.1 Additional Provisions for Regulating Amplification in Public Spaces

Employee and Legal Services - ELS02977

Original Due Date: November 2025, Community and Public Services Committee

Revised Due Date: September 25, 2026, Community and Public Services Committee

- ELS02977 relates to bylaws that regulate behaviors in public spaces. Rather than having separate, siloed discussions with City Council, Administration feels it would be advantageous to have a holistic discussion at the same time that the Public Spaces Bylaw One Year Review is brought to Council, which will provide Council with relevant, important information which will better equip them to make informed decisions.

Recommendation:

That the revised due date of September 25, 2026, Community and Public Services Committee, for the Employee and Legal Services report ELS02977, Additional Provisions for Regulating Amplification in Public Spaces, be approved.
