

Changes in Fatalities, Speed Violations and Automated Traffic Enforcement (ATE) Guidelines

This chart summarizes recent changes with provincial ATE guidelines, which govern the City's Automated Enforcement program, alongside the total annual traffic fatalities and the total number of speed violations observed per active monitoring day at Intersection Safety Devices (ISD's). Automated enforcement of speeding violations was discontinued as of January 1, 2025. Speed violation data for 2025 was based on the application of previous enforcement criteria to speed data collected from ISDs.

Changes in Fatalities, Speed Violations and ATE Guidelines

*Year to date includes data for Sep and Oct 2025
