

## 7.5 - 2025 Municipal Edmonton Election Advisory Report

**Advisory Project Objective:** Provide proactive advice on risk and controls to the Edmonton Elections team as they prepared for, during, and after the 2025 municipal election.

**Scope:** All documentation and work that Edmonton Elections requested OCA involvement with for the 2025 Municipal Election. Validation of election results was outside the scope of this project.

### **Suggestion to Edmonton Elections for Future Consideration:**

Consider a more comprehensive training approach for election workers in future elections. This would include:

- Hands-on training with the computerized systems used by Deputy Returning Officers to register voters.
- Hands-on training for the completion of key forms and worksheets used by Presiding Deputy and Count Supervisor.
