

River Crossing Project Overview

River Crossing Community Redevelopment

Enabling Infrastructure: to create the footprint for River Crossing implementation and enable redevelopment, the City will advance underground infrastructure upgrades; make adjustments to the transportation network; and enhance sustainability, potentially through District Energy; to meet future needs.

River Crossing Park

Reconciliation & Gathering: A new park that honours the long and layered history of the Ross Flats will be the centre of River Crossing.

Touch the Water Promenade

Connection: A unique opportunity for connection to the river and the history of the Ross Flats through enhanced public spaces and multi-use trails, and access to the Power Plant.

Rossdale Power Plant

Historical Opportunity: Rehabilitation and reuse of the Rossdale Power Plant.
