| PROJECT NAME: | Whitemud Equine Centre Redevelopn | 12-21-5742   |            |  |

Bylaw will be required prior to approval for these projects as they are located in the River Valley.

- Design work will take place in 2012/13 and redevelopment will commence in 2014/2015. Proposed development may be phased depending on funding.

- Upon the WELCA securing the required project funding, and the Project Team resolving any River Valley bylaw and change to parkland process requirements the City may have, the City and the WELCA will enter into a variety of agreements including but not limited to lease, operating and funding agreements for use and stewardship of the site.
- WELCA is responsible for the management and ongoing operations of the facility.
   At this stage, WELCA has the finances in place for concept and design planning work and are developing plans to raise project funding from various levels of government, corporate sponsorship and private donors.

The anticipated project financing is:

General Financing \$4,000
Partnership Fin. \$3,900
Fed Grant \$4,000
Prov Grant \$4,000
TOTAL \$15,900

Upon complettion of the project, the asset will be transferred over to the City of Edmonton, thereby \$11,900 as gifted asset plus City contributed \$4,000 toward the Equine Centre.

## Justification

- In 2001, the Whitemud Equine Centre Association and the Friends of Whitemud Equine Centre amalgamated to form the Whitemud Equine Learning Centre Association (WELCA). This group was formed to govern and operate the Whitemud Equine Centre under a lease with the City.
- Redevelopment of facilities is a priority for the continuation of WELCA in a viable fashion.
- In 2006 and 2008, a Lifecycle Planning and Building Condition Assessment was completed by AMPW noting that the building systems generally displayed evidence of deterioration because of water penetration / infiltration, normal weather and aging infrastructure.
- In a summary of deficiencies the site improvements roofing, exterior enclosures, foundations, superstructure, interior construction and finishes were found to be in fair / poor condition.
- As recently as January 2011, the City of Edmonton?s Building Maintenance Departments indicated to WELCA that the deteriorating condition of the indoor arena and attached barn were deemed to be beyond repair. If the project does not proceed the buildings will become unusable and the Equine Centre will close.
- The current WELCA board has redeveloped their vision and has begun work on the conceptual site planning for the redevelopment of the site. Facility redevelopment is also a priority for WELCA to become a regional centre for equestrian education and training.
