### List of Major Facilities

The major facilities (as that term is defined in the Bylaw) within the Bylaw boundaries include:

- A tunnel and portal structure through the north wall of the River Valley on the east boundary of Louise McKinney Park including a maintenance/emergency access road;
- Removal of the current Cloverdale pedestrian bridge across the North Saskatchewan River and replacement with a new single tower extradosed bridge and underslung pedestrian bridge;
- An elevated guideway through Henrietta Muir Edwards Park and across 98 Avenue connecting the extradosed bridge to the Muttart LRT stop;
- A LRT stop and entrance plaza at the Muttart Conservatory;
- A traction power substation in the vicinity of the Muttart Conservatory;
- Removal and replacement of the current Connors Road pedestrian bridge with a new pedestrian bridge;
- Track installation, including a siding track at the Muttart LRT stop;
- Installation of associated LRT infrastructure to facilitate operations (such as traction power systems, communications systems and systems infrastructure);
- Removal and replacement of the Muttart storage building in a new location;
- Retaining walls as needed on slopes;
- Stormwater management infrastructure;
- Roadwork;
- Trail system reconnections; and
- Landscaping, reclamation and restoration of lands.
