

Option 1 – Spoke Network

Option 1 – Spoke Network

Features:

- Five cross-town bus routes provide direct service to all areas of the city from Downtown and Old Strathcona. This network also serves major hospitals, transit centres, post-secondary campuses and surrounding residences, industrial areas, casinos, and the hospitality sector on Jasper Avenue, Whyte Avenue and a portion of 124 Street.
- All routes operate every 30 minutes.

Benefits:

- All areas of the city are served with direct service from both Downtown and Old Strathcona.
- All other destinations require only one transfer if not served directly.
- Direct cross-town service is available to some areas.
- Major timed transfers to be designed in Downtown and Old Strathcona. Transfers can also be made at some transit centres.
- Some residents will be within 1 km walking distance from a night route.

Issues:

- Large one-way loops result in slightly higher travel times in outlying neighbourhoods.
- Cross-town service is available through Downtown/Old Strathcona only.
- Some temporary late night parking restrictions may be required to accommodate a longer bus stop for five buses in each direction along Jasper Avenue and Whyte Avenue.

Route Details:

Route	Origin	Destination	Round Trip Time	Buses Required
Route 1	Lake District	Terwillegar	90	7
Route 2	West Edmonton Mall	Mill Woods	90	7
Route 3	Northwest Industrial	Meadows	90	7
