

Option 2 – Transit Centre Base Network

Option 2 – Transit Centre Base Network

Features:

- Eleven routes provide service to Downtown, major hospitals, transit centres, post-secondary campuses and surrounding residences, industrial areas, casinos, and the hospitality sector on Jasper Avenue, Whyte Avenue and 124 Street.
- All routes operate every 30 minutes.

Benefits:

- More cross-town service will be available, connecting suburban areas.
- A loop route serving both Whyte and Jasper Avenue to limit additional transfers between the two areas.
- Many residents will be within 1 km walking distance from major routes.

Issues:

- No service within outlying neighbourhoods.
- Additional transfers to taxis at transit centres.
- Some temporary late night parking restrictions may be required to accommodate a longer bus stop for five buses in each direction along Jasper Avenue and Whyte Avenue.

Route Details:

Route	Origin	Destination	Round Trip Time	Buses Required
Route 1	West Edmonton Mall	Downtown	90	3
Route 2	West Edmonton Mall	Downtown	60	2
