Financial Stabilization Reserve (FSR), Operating Carry-Forwards and Other Items

As per City Policy C217D - Reserve and Equity Accounts, the entire 2019 tax-supported surplus is transferred to the Financial Stabilization Reserve. Use of the Financial Stabilization Reserve requires a subsequent transfer from the reserve to offset expenditures in future years.

This attachment provides a listing of carry-forward recommendations, 2019 Financial Stabilization Reserve transactions and appropriations, other funding recommendations for City Council consideration and the details of the appropriated balance of the Financial Stabilization Reserve. It also provides the projected balance of the Financial Stabilization Reserve after considering Recommendation 1 and the preliminary 2019 tax-supported surplus. Recommendation 1 is for the carry-forward of 2019 approved operating budget into 2020 where operating commitments were provided for in the 2019 approved budget and were not utilized by year-end. Recommendation 1 is the only recommendation in the report requiring new funding from the Financial Stabilization Reserve.

A comparison of the projected reserve balance to both the preliminary minimum and target reserve balances for 2019 is provided for information in this attachment. The Financial Stabilization Reserve balance is projected to be above its minimum required balance.

A summary of the reserve balance from 2015 to 2019 is also provided. The 2019 reserve balance and minimum and target balances may change based on finalization of the audited consolidated financial statements, which will be presented to City Council on April 27, 2020.

Budget Adjustment Recommendations

Recommendation 1 - Operating budget carry-forwards - \$3.8 million

This report recommends that the 2020 operating expenditure budgets be increased by \$3.8 million for 2019 expenditures committed but not utilized in the year, with matching funding from the Financial Stabilization Reserve, as identified in Table 1, Schedule E.

Page 1 of 2 Report: CR_7976

Recommendation 2 - Budget adjustments for items previously appropriated in the Financial Stabilization Reserve - \$4.5 million

This recommendation is for budget adjustments for amounts previously appropriated within the Financial Stabilization Reserve, as identified in Table 1, Schedule A. The adjustment is strictly a timing adjustment, with expenditures and offsetting funding being reallocated to 2020. There is no overall impact to the 2020 tax-levy requirement or the Financial Stabilization Reserve.

Expenditures expected to be utilized in 2019, funded by \$4.5 million from the Financial Stabilization Reserve were not spent during the year. Expenditures are now planned to go ahead in 2020. Recommendation 2 increases the 2020 budget by \$4.5 million for the revised expenditures and the offsetting reserve funding transfers.

Recommendations 3 - 5 – Budget adjustments for operating commitments funded through reserves and other external non tax-levy funds in the 2019 approved budget that were not completed by year-end

Operating commitments were made in the 2019 approved budget with funding from reserves or external non tax-levy funds and were not completed by year-end. Budget adjustments are being recommended to reallocate 2019 expenses and offsetting funding sources into the 2020 operating budget, with no impact to the 2020 tax-levy requirement or the Financial Stabilization Reserve, as identified in Table 2.
