CR\_7122rev City Council March 9, 2020

### **Disposition Strategy**

Residential & Industrial Lot Development **\$274M (2049)** Total Dividend \$171 NPV\*

\*Net Present Value (NPV): the difference between the present value of cash inflows and the present value of cash outflows over a period of time

#### Recommendations

- Wind-down Program by 2049 through:
  - Resume residential greenfield land development
  - Continuation of industrial land development

## **Disposition Strategy**

- Continuation of revenue generating program
- Moratorium on new residential land purchases
- Updated governance and land development policies
- Increased reporting
- Achieve 2019-2022 Budget revenue projections
- Special Dividend payment

#### **Executive Committee Discussion**

- Self-funded program, does not draw from Tax Levy and does not utilize debt as a funding source.
- Residential product has always been well received and sells out within days.
- Risks are managed:
  - Exposure averages \$10 million/year over development timeframe
  - Updated governance and continued evaluation of development scenarios
- PwC's analysis is conservative:
  - 2% revenue increases and 3% expenses increase
  - Contingency included within proformas

#### Aster

- Government of Alberta land listed on the Multiple Listing Service (MLS)
  - Requirement to transact at market value
- City of Edmonton was one of multiple offers received, required to transact at market value:
  - Appraisals completed, purchase price considered to be at market value
  - Executive Committee approved acquisition, September 2017
