

# Quarterly Update on Trenchless Project Proposals

Drainage Services, Design and Construction – January 1 to March 31, 2011

## Recommendation:

That the May 25, 2011, Asset Management and Public Works Department report 2011PW4764-7 be received for information.

## Report Summary

This report details Drainage Services, Design and Construction Quarterly Updates on Trenchless Project Proposals for January 1 to March 31, 2011.

## Previous Council/Committee Action

At the July 14, 2009, Transportation and Public Works Committee meeting, the following motion was passed:

That the City Manager provide quarterly reports outlining the bids and proposals submitted and the results of those submissions.

## Report

During the period from January 1 to March 31, 2011, Drainage Services, Design and Construction:

- started construction on two trenchless projects for the City of Calgary
- submitted a bid as a subcontractor for another trenchless project in the City of Calgary. However, the contract was cancelled due to the project being put on hold as a result of budget constraints

- submitted a bid as a subcontractor for a trenchless project at University of Alberta. Construction is now underway
- submitted a proposal to the developer group for the 66 Street sanitary sewer that was accepted. Construction is scheduled to commence in early fall 2011
- began preliminary negotiations on two invitational bids in Edmonton. Negotiations are still underway
- responded to a pricing inquiry for a water transmission main to be constructed using trenchless methods outside Edmonton
- began work on the successful competitive bid for the Remand Centre sewer project

## Corporate Outcomes

The generation of revenue outside of the tax base through these activities directly supports the 10-year goal of ensuring Edmonton's Financial Stability.
