A copy of the notice shall be filed with the Commission.

(d) Payment of Franchise Fee

Immediately upon the Municipality passing third reading of the applicable by-law approving this Agreement, the Company shall pay the franchise amount, billed to each Consumer, to the Municipality on a monthly basis with forty-five (45) days after billing for each Consumer.

All taxes or assessments in the nature of sales taxes, goods and services taxes (the "GST"), or value-added taxes which may be charged, levied, or assessed as a result of this Agreement shall be collected and paid by the Company. The obligation to pay these taxes to the Municipality will coincide with the timing of the payments as they become due.

8) **RIGHT TO TERMINATE ON DEFAULT**

In the event either party breaches any material provision of this Agreement, the other party may, at its option, provide written notice to the party in breach to remedy such breach. If the said breach is not remedied within two (2) weeks after receipt of the written notice or such further time as may be reasonably required by the party in breach using best efforts on a commercially reasonable basis to remedy the breach, the party not in breach may give six (6) months notice in writing of the termination of this Agreement to the other party, and unless such breach is remedied to the satisfaction of the party not in breach acting reasonably this Agreement shall terminate subject to prior Commission approval.

9) **SALE OF GAS DISTRIBUTION SYSTEM**

Upon the expiration of the Term of this Agreement, or the termination of this Agreement pursuant to the terms and conditions hereof or by operation of law or order of a governmental authority or court of law having jurisdiction, the Municipality may, subject to the approval of the Commission, (i) exercise its right to require the Company to sell to it the Gas Distribution System pursuant to the provisions of the *Municipal Government Act* (Alberta), as may be amended, where applicable or (ii) if such right to require the Company to sell the Gas Distribution System is either not applicable or has been repealed, require the Company to sell to it the Gas Distribution System. 10) **PROVISION OF DETAILED PLANS AND EQUIPMENT**

(a) **Detailed Plans**

The Company shall, at its own cost, participate in the Geo Edmonton Utility ROW Alliance, Alberta One Call, and other similar organizations that may exist from time to time and shall ensure that electronic facility plans are maintained at the Company's expense in the shared data base and are available to all partners in the Alliance and Alberta One Call.

The Company agrees to provide on request to the Municipality the most current set of detailed plan sheets including facility drawings and specifications showing the locations (excluding depth) and alignments of the Gas Distribution System, excepting Service Lines and installations on private property. The parties acknowledge that the Company continues to own all intellectual property rights in such detailed plan sheets, drawings and specifications.

The Municipality shall upon reasonable request, provide to the Company any subdivision development plans of the Municipality in hard copy and in the Municipality's electronic form where available. The subdivision development plans are provided to the Company for the sole purpose of assisting the Company in delivering natural gas to the Consumer.

(b) **Provision of Equipment**

The Company agrees to provide the Municipality's fire department with the equipment necessary for the operation of curb boxes and service valves so that in case of fire, the service valves may be turned off by the fire department if they reach a fire before the Company's representative. The Municipality will notify one of the Company's representatives of fires which may affect the Gas Distribution System and /or the operations as quickly as reasonably possible, or, in the event that they cannot reach a Company representative, the Municipality will advise the Company's standby personnel of such fires. The Company shall ensure that its representatives reasonably cooperate with the Municipality in

preventing, controlling and investigating fires involving or affecting the Gas Distribution System.

11) **RIGHT OF FIRST REFUSAL TO PURCHASE**

- (a) If during the Term of this Agreement, the Company receives a bona fide offer to operate, take control of the entire Gas Distribution System or purchase the Gas Distribution System within the Municipal Area, which the Company is willing to accept, then the Company shall promptly give written notice to the Municipality of the terms and conditions of such offer and the Municipality shall during the next one hundred and twenty (120) days, have the right of first refusal to operate, take control of or purchase that part of the Gas Distribution System, as the case may be, for the same price and upon the terms and conditions contained in the said offer. Notwithstanding the foregoing, in the event that the Municipality fails or refuses to exercise its right of first refusal, the Municipality shall retain the right to withhold its consent to an assignment of this Agreement in accordance with paragraph 19 below. For the purposes of this paragraph 11, "operate, take control" shall not be construed as including the subcontracting by the Company of only some portions of its operations where the Company continues to be responsible for the performance of this entire Agreement.
- (b) If the Municipality does not exercise its right of first refusal and the said bona fide offer that the Company is willing to accept does not proceed to closure, the Municipality retains its right of first refusal on any other offer.
- (c) This right of first refusal only applies where the offer pertains to the entire Gas Distribution System and the right of first refusal does not apply to offers that include any other distribution systems or distribution facilities of the Company located outside of the Municipal Area. If such offer includes other distribution systems of the Company, the aforesaid right of first refusal shall be of no force and effect and shall not apply.
- (d) Where the Municipality exercises its rights to purchase the Gas Distribution System from the Company and thereby acquires the Gas Distribution System, the Municipality agrees that should it no longer wish to own the Gas Distribution System within five (5) years after it acquires the said system and the Municipality receives any *bona fide* offer from a third party (including any entity which the Municipality controls) to purchase the Gas Distribution System, which it is willing to accept, then it shall promptly give notice to the Company of the terms and conditions of such offer. The Company shall during the next one hundred and twenty (120) days have the first right of refusal to purchase the Gas Distribution System for the same price and upon the same terms and conditions as contained in the said offer, providing the offer is equal to or greater than the terms of the original purchase by the Municipality from the Company (taking into account the depreciation of the Gas Distribution System at the time of the offer).
- (e) The Municipality's right of first refusal shall not apply where the Company has agreed to transfer the entire Gas Distribution System to a third party utility

company in exchange for certain other assets provided all of the following conditions are met:

- (i) the third party utility can demonstrate to the reasonable satisfaction of the Municipality that it meets the necessary technical and financial requirements to own and operate the Gas Distribution System;
- (ii) the only consideration that shall be exchanged between the Company and the third party utility company is the transfer and exchange of assets, or the transfer and exchange of assets and monetary consideration (where such monetary consideration does not exceed 49% of the net book value of the Gas Distribution System);
- (iii) there is no material adverse impact to the Municipality resulting from the transfer and exchange above referenced as determined by the Commission;
- (iv) the Company and the third party utility company obtain all the requisite regulatory requirements prior to completing the exchange; and
- (v) full compensation is paid to the Municipality for all costs including administrative and legal costs incurred by the Municipality in ensuring all of the conditions (i) through (iv) above are satisfied.

12) **CONSTRUCTION/MAINTENANCE OF GAS DISTRIBUTION SYSTEM**

(a) **Municipal Approval**

Before undertaking any Work on the Company's existing Gas Distribution System or for new Work in existing roads that are being operated by the Municipality and for which a construction compliance certificate has been issued, or in any case in which the Municipality specifically requests the same, the Company will submit to and obtain the approval from the Municipality, or its authorized officers; of the plans, and the specifications when available for the proposed Work and its location. Approval by the Municipality granted in accordance with this paragraph shall be limited to an approval of the location and alignment of the Work only, and shall not signify approval of the structural design or the ability of the Work to perform the function for which it was intended.

Before undertaking any Work in new subdivisions or areas in which a third party is constructing a roadway which has not yet received a construction completion certificate from the Municipality, the Company shall obtain the necessary third party approval for alignment and location of the Work in accordance with the City of Edmonton Design and Construction Standards.

Prior to commencing any Work on City Lands, the Company shall obtain such utility line assignment permits, OSCAM permits and other applicable permits as are required by the Municipality.

The Company shall obtain prior written approval from the Municipality of any traffic lane or sidewalk closures required to be made at least forty-eight (48) hours prior to the commencement of the proposed Work except in situations described in Clause 12(c) of this Agreement.

All costs and expenses associated with construction, installation, maintenance, operation, repair, replacement, or removal of equipment, or any other activity by the Company in the exercise of its rights pursuant to this Agreement on, over, under, along or across the City Lands, shall be borne by the Company.

The Company shall ensure that all Work is performed in accordance with the requirements of all applicable legislation, rules and regulations. In particular, the Company agrees that all Work carried out by the Company on, over, under, along or across City Lands pursuant to this Agreement shall:

- (i) be carried out in good, workmanlike and timely manner;
- (ii) comply with all applicable civil construction and safety codes, City of Edmonton Design and Construction Standards, Municipal service standards and Municipal policies and procedures, as amended from time to time;
- (iii) be in accordance with the Company's servicing standards; and
- (iv) be made to the permanent installation standard no later than nine months after installation or within such reasonable time period as approved by the Municipality, where the Work has been done as an emergency or temporary repair.

(b) Restoration of City Lands

The Company shall forthwith restore the City Lands to the same state and condition, as nearly as reasonably practicable, in which it existed prior to the commencement of any Work, subject to reasonable wear and tear, to meet or exceed the Municipality's Design and Construction Standards in place from time to time.

The Company shall, where reasonably practicable, install its pipelines and related equipment in accordance with the Municipality's Design and Construction Standards which include alignments by roadway type.

The Company further covenants that it will not unduly interfere with the works of others or the works of the Municipality. Where reasonable and in the best interests of both the Municipality and the Consumer, the Company will cooperate with the Municipality and coordinate the installation of the Gas Distribution System along the designated rights-of-way pursuant to the direction of the Municipality. During the performance of the Work, the Company shall use commercially reasonable efforts to not interfere with existing City Lands and to cause as little damage as possible to the property of others (including the City Lands). If the Company causes damage to any existing City Lands during the performance of any Work, it shall cause such damage to be repaired at its own cost.

Upon default by the Company or its agent to repair damage caused to City Lands, the Municipality may provide written notice to the Company to remedy the default. If the default is not remedied within two (2) weeks after receipt of the written notice or such further time as may be reasonably required and requested by the Company using the best efforts on a commercially reasonable basis to remedy the default, the Municipality may undertake such repair work and the Company shall be liable for the reasonable costs thereof.

(c) Urgent Repairs and Notification to Municipality

If any repairs or maintenance required to be made to the Gas Distribution System are of an urgent nature where the operation or reliability of the Gas Distribution System is materially compromised or potentially materially compromised, the Company shall be entitled to conduct such repairs or maintenance as are commercially reasonable without prior notice to the Municipality, on the understanding and agreement that the Company will provide written or verbal notice to the Municipality as soon as practicable and in any event no later than 72 hours after the repairs are commenced.

(d) Company to Obtain Approvals from Other Utilities

The Company shall be solely responsible for locating, or causing to be located, including through services of Alberta One Call, all existing utilities or utility mains, pipes, valves and related facilities in, on or adjacent to the Work site. The Company shall notify all other utility operators and ensure that utilities and utility mains, pipes, valves and related facilities are staked prior to commencement of construction. Unless the Municipality has staked the location for the utility property, staking shall not be deemed to be a representation or warranty by the Municipality that the utility or utility property are located as staked. The Municipality shall not be responsible for any damage caused by the Company to any utility or any third party as a result of the Company's Work, unless the Municipality has improperly staked the utility property. Approval must be obtained by the Company from the owner of any third party utility prior to relocation of any facility owned by such third party utility.

(e) **Approvals**

Where any approvals are required to be obtained from either party under this Article, such approvals shall not be unreasonably withheld.

The Company shall immediately notify the Municipality of any lien, claim of lien or other action of which it has or reasonably should have knowledge, and shall cause the same to be removed within 30 days (or such additional time as the Municipality may allow in writing), failing which the Municipality may take such action as it reasonably deems necessary to remove the same and the entire cost thereof shall be immediately due and payable by the Company to the Municipality.

(f) **Salvaging**

The Municipality reserves its rights to salvage all or a portion of materials such as earth, stone, asphalt, concrete and other materials removed from City Lands during any Work, as directed by the City Manager.

(g) **Alignment Standards**

The Municipality shall consider and incorporate as reasonably appropriate the Company's input when revising and updating the City of Edmonton Design and Construction Standards.

13) **RESPONSIBILITIES FOR COST OF RELOCATION**

Upon receipt of one hundred twenty (120) days notice from the Municipality, the Company shall, at its own expense, relocate to City Lands such parts of the Gas Distribution System that are located on City Lands as may be reasonably required by the Municipality due to planned Municipal construction. In order to encourage the orderly development of Municipal facilities and the Gas Distribution System, the Municipality and the Company agree that they will meet regularly to: a) review the long-term facility plans of the Municipality and the Company; and b) determine the time requirements and costs for final design specifications for each relocation. Providing the Municipality is not the developer requesting the relocation for commercial or residential resale to third parties, the Company shall bear the expenses of the required relocation.

Notwithstanding the foregoing, the Company shall not be required to move any part of the Gas Distribution System after receipt of notice from the Municipality in accordance with this Article where:

- (a) the Company has illustrated to the satisfaction of the Municipality, acting reasonably, that an appropriate Alternative Course of Action is available;
- (b) the Municipality has provided the Company with its written approval of the Alternative Course of Action (which approval may not be unreasonably withheld by the Municipality); and

- (c) the Company has provided its written undertaking to carry out the Alternative Course of Action promptly and within a sufficiently short period of time so as to ensure that the Municipality will be left with sufficient time to complete the said planned Municipal construction within the Intended Time Frame (taking into account any delays which the Municipality may encounter as a result of the Company utilizing the Alternative Course of Action).

For the purposes of this Article 13, the term "Alternative Course of Action" shall mean any course of action that will enable the Municipality to complete the said Municipal construction and will result in a net cost savings to the Company (taking into account all additional costs incurred by the Company in carrying out the Alternative Course of Action and any additional costs which the Municipality may incur and which the Company will be required to pay in accordance with this Article 13) and "Intended Time Frame" shall mean the period of time within which the Municipality would have reasonably been able to complete the said Municipal construction if the Company would have relocated the Gas Distribution System in accordance with this Article 13.

If the Municipality agrees to permit the Company to utilize an Alternative Course of Action, the Company shall pay any and all costs incurred in carrying out the Alternative Course of Action and shall pay on demand to the Municipality (on a full indemnity basis) any and all costs incurred by the Municipality, which costs may include, but not be limited to the costs incurred:

- (i) in conducting a review of the Alternative Course of Action to determine whether the Alternative Course of Action is acceptable to the Municipality;
- (ii) in modifying any plans the Municipality may have prepared in respect of the said Municipal construction (which are referred to herein as "Modified Plans") or in preparing or developing plans and procedures (which are referred to herein as "Work Around Procedures") to work around the Gas Distribution System or any improvement, thing, or component utilized by the Company in effecting the Alternative Course of Action; and
- (iii) in the course of conducting the said planned Municipal construction where such costs would not have been incurred by the Municipality if the Company had relocated the Gas Distribution System in accordance with this Article 13 (including any additional cost the Municipality may incur in completing the said Municipal Construction in accordance with the Modified Plans or in effecting any Work Around Procedures).

The following example illustrates the intended application of the foregoing provisions:

Where : (A) The Municipality requires the Company to move a gas line so that the Municipality can replace its own sewer lines. The cost of moving the gas line is \$10,000. The cost of carrying out the replacement of the sewer line after moving the gas line is \$40,000;

(B) The Company proposes to simply brace the gas line (at a cost of \$2,000) and the Municipality, acting reasonably, approves of this as an Alternative Course of Action;

(C) As a result of having to prepare Modified Plans and to prepare and implement Work Around Procedures to work around the braces, the actual cost incurred by the Municipality in replacing the sewer line is \$45,000 (being a net increase in cost of \$5,000);

the Company is required to pay the \$2,000 cost of the bracing together and the additional cost of \$5,000 incurred by the Municipality (resulting in a net savings of \$3,000 to the Company).

In cases of emergency, the Company shall take all measures that are commercially reasonable and necessary to ensure public safety with respect to relocating any part of the Gas Distribution System that may be required in the circumstances.

If the Company fails to complete the relocation of the Gas Distribution System or fails to repair or do anything else required by the Company pursuant to this clause without valid justification and in a timely and expeditious manner to the satisfaction of the Municipality's representative, acting reasonably, the Municipality may, but is not obligated to, complete such relocation or repair and the Company shall pay the reasonable costs of such relocation or repair forthwith to the Municipality. If the Municipality chooses to complete such relocation or repair the Municipality will ensure that such work is completed using the Company's design specifications and standards, as provided by the Company, including the use of good and safe operating practices.

The Municipality is not responsible, either directly or indirectly, for any damage to the equipment which forms part of the Gas Distribution System which may occur during its installation, maintenance or removal by the Company, nor is the Municipality liable to the Company for any losses, claims, charges, damages and expenses whatsoever suffered by the Company including claims for loss of revenue or loss of profits, on account of the actions of the Municipality, its agents or employees, working in, under, over, along, upon and across its highways and rights-of-ways or other City Lands other than direct loss or damage to the Company caused by the negligence or willful misconduct of the Municipality, its agents or employees.

In the event the relocation or any part thereof requires the approval of a third party, the Municipality will use reasonable efforts to assist the Company in any negotiation with such third party to obtain the necessary approval(s).

In the event the relocation results from the demand or order of an authority having jurisdiction, other than the Municipality, the Municipality shall not be responsible for any of the costs of such relocation.

14) **GAS DISTRIBUTION SYSTEM EXPANSION**

Subject to the Terms and Conditions, and at no cost to the Municipality unless otherwise provided for under the Terms and Conditions, the Company shall, on a timely basis use its best efforts on a commercially reasonable basis to meet the Gas Distribution System expansion requests of the Municipality or a Consumer, and provide the requisite facilities for connections for new Consumers to the Gas Distribution System.

15) **INCREASE IN MUNICIPAL BOUNDARIES**

Where there are increases to the Municipal Area through annexation or amalgamation as understood under the *Municipal Government Act* (Alberta), the rights and obligations contained in this Agreement will apply in respect of the whole Municipal Area, including the increased area, provided that the Municipality shall have the right to reopen negotiations on the Franchise Fee whenever there is an annexation or amalgamation.

16) **JOINT USE OF GAS DISTRIBUTION SYSTEM**

(a) **Municipal Use**

The Municipality shall upon notice to the Company have, for any reasonable municipal purpose, the right to make use of the Gas Distribution System (excluding the transportation of gas) and any rights-of-way granted to the Company, provided such use complies with good and safe natural gas operating practices, as determined by the Company acting reasonably, applicable legislation, and does not unreasonably interfere with the Company's use thereof, at no charge to the Municipality. The Municipality is responsible for its own costs and any necessary and reasonable costs incurred by the Company including the costs of any alterations that may be required in using the Gas Distribution System.

(b) **Third Party Use and Notice**

The Company agrees that should any third party including other utilities desire to jointly use the Gas Distribution System or trenches or any parts of the Gas Distribution System, the Company shall not grant the third party joint use except in accordance with this Article, unless otherwise directed by any governmental authority or court of law having jurisdiction.

The Company agrees that the following procedure shall be used in granting permission to third parties desiring joint use of the Gas Distribution System:

- (i) first, the third party shall, if it contacts either party hereto, be directed by the relevant party to approach the Company to initially request conditional approval from the Company to use that part of the Gas Distribution System it seeks to use;
- (ii) second, upon receiving written conditional approval from the Company, the third party shall be directed to approach the Municipality to obtain its written approval to jointly use that part of the Gas Distribution System on

any City Lands or right-of-way. As a condition of granting its consent, the Municipality may require that such third party enter into an agreement with the Municipality, and such agreement may require that such third party pay compensation to the Municipality;

- (iii) third, upon receiving written conditional approval from the Municipality, the third party shall be directed to obtain final written approval from the Company to jointly use that part of the Gas Distribution System. Once a joint use agreement has been entered into between the Company and the third party, it shall not be subsequently amended without the consent of the Municipality (which consent will not be unreasonably withheld).

(c) **Cooperation**

The Company and Municipality agree they will use reasonable efforts to cooperate with each other in encouraging activities that will improve the provision of Gas Distribution Service to Consumers, including the use of joint trenching and in any negotiations with third parties desiring joint use of any part of the Gas Distribution System located on City Lands.

(d) **Payment**

The compensation paid or to be paid by such third party to the Municipality for the use of the City Lands, shall be determined between the Municipality and the third party.

The compensation paid or to be paid by such third party to the Company for the joint use any portion of the Gas Distribution System shall be determined between the Company and the third party, subject to the jurisdiction of any governmental authority over the matter and the Municipality's right to intervene in any related regulatory proceeding.

(e) **Provision of Agreements**

The Company shall provide to the Municipality within 6 months of executing this Agreement a copy of all agreements between the Company and any third parties involved in the joint use of any part of the Gas Distribution System.

Upon reasonable request by the Municipality, copies of these agreements shall be updated by the Company and provided to the Municipality at no cost to the Municipality.

17) **INDEMNIFICATION, LIABILITY AND INSURANCE**

- (a) The Company shall indemnify and save the Municipality, its servants, agents, employees, licensees, contractors and invitees, harmless from and against any and all liability, actions, demands, claims, damages, losses and expenses (including all legal costs and disbursements), including indemnity from and against any claim, loss, cost, demand and legal or other expense, whether in respect of any lien, encumbrance or otherwise, arising out of any Work

- (d) Throughout the term of this Agreement, the Company shall maintain in full force and effect the following:

It is further understood and agreed that the policy limits shown herein do not define or limit the Company's liability to indemnify the Municipality, nor does the Municipality make any representation as to the adequacy of said limits or scope of coverage in the event of a claim.

18) **HAZARDOUS SUBSTANCES**

- (a) The Municipality has made no representations or warranties as to the quality, condition or sufficiency of the City Lands for any purpose, or as to the presence or absence of hazardous substances on, over, under, along or across the City Lands and the City Lands are used and occupied by the Company at its own risk with all faults and imperfections whatsoever and on a strictly "as is, where is" basis. Notwithstanding the above in no circumstance shall the Company be liable for the remediation or clean up of any hazardous substances existing on, over, under, along or across the City Lands prior to the execution of this Agreement, save and except for any remediation or clean up required as a result of the Company's use, activities or operations on, over, under, along or across the City Lands prior to execution of this Agreement.

- (c) Notwithstanding the foregoing, the Municipality shall notify the Company of any escape, discharge or release of any hazardous substance on City Lands, where the Company has been given consent to Construct its Gas Distribution System, of which the Municipality has actual knowledge prior to the Company carrying out its Work.

19) **ASSIGNMENT**

In the event that the Company agrees to sell the Gas Distribution System to a third party purchaser, the Company shall comply with Article 11 above. In addition, the Company will request that the third party purchaser confirm in writing that it will agree to all the terms and conditions of this Agreement between the Company and the Municipality. The Company agrees that it will provide to the Municipality a copy of the third party purchaser's confirmation letter.

The Company agrees to provide the Municipality with reasonable prior written notice of a sale of the Gas Distribution System to a third party purchaser. The parties shall thereafter meet to discuss the technical and financial capabilities of the third party purchaser to perform and satisfy all terms and conditions of the Agreement, and the compensation payable to the Municipality for all costs including administrative and legal costs relating to providing its consent to the Assignment. ("Municipal Compensation")

The Municipality has thirty (30) days from the meeting date with the Company to provide written notice to the Company of its intention to consent or withhold its consent to the assignment of the Agreement to the third party purchaser. The Company agrees that the Municipality may provide notice of its intention to withhold its consent to the assignment of this

Agreement to the third party purchaser if the Municipal Compensation is inadequate or if the third party purchaser fails to covenant, in favour of the Municipality, to perform and observe all of the covenants and obligations of the Company to be performed and observed under this Agreement and otherwise solely on the basis of reasonable and material concerns regarding the technical capability or financial wherewithal of the third party purchaser to perform and satisfy all terms and conditions of the Agreement. In this case, such notice to the Company must specify in detail the Municipality's concern. Should the Municipality not reply within the thirty (30) days, it is agreed that the Municipality will be deemed to have consented to the assignment. The Company further agrees that, when it applies to the Commission for approval of the sale, it will include in the application any notice received from the Municipality, including the reasons given by the Municipality for withholding its consent. The Municipality shall have the right to make its own submissions to the Commission.

Subject to the Company having fulfilled the obligations outlined in the preceding three paragraphs, the Company shall be entitled to assign this Agreement to an arm's length third party purchaser of the Gas Distribution System without the consent of the Municipality, subject to paying the Municipal Compensation for the assignment, and having obtained the Commission's approval for the sale of the Gas Distribution System and, the third party purchaser's confirmation in writing that it agrees to all the terms and conditions of this Agreement.

Subject to applicable law (including environmental legislation), where the Commission approves such sale of the Gas Distribution System to a third party and the third party provides written confirmation to assume all liabilities and obligations of the Company under this Agreement, then upon the assignment of this Agreement and the payment of the Municipal Compensation for its consent to the Assignment subject to Commission approval, the Company shall be released from all its liabilities and obligations thereunder.

The Company shall be entitled to assign this Agreement to a subsidiary or affiliate of the Company without the Municipality's consent. Where the Company assigns this Agreement to a subsidiary or affiliate, the Company will remain jointly and severally liable.

Further, it is a condition of any assignment that the subsidiary, affiliate or third party purchaser, as the case may be, shall provide written notice to the Municipality indicating that it will assume all liabilities and obligations of the Company under this Agreement.

Any disputes arising under the operation of this Article shall be submitted to the Commission for determination.

For any other major interruption, reductions or discontinuances in Gas Distribution Service, the Company shall provide verbal notice to the Municipality as soon as is practicable in the circumstances.

22) **DISPUTE SETTLEMENT**

To the extent permitted by law and except as otherwise provided in this Agreement, the Company and Municipality agree that unresolved disputes pertaining to this Agreement, other than any matter that is within the exclusive jurisdiction of a governmental authority having jurisdiction, shall be submitted to arbitration for determination and may be commenced by either party providing written notice to the other party stating the dispute to be submitted to arbitration. The parties shall attempt to appoint a mutually satisfactory arbitrator within 10 business days of the said notice. In the event the parties cannot agree on a single arbitrator within the 10 business days, each party shall appoint an arbitrator within the 10 business days thereafter by written notice, and the two arbitrators shall together appoint a third arbitrator within 25 business days of written notice for arbitration. If either party fails to appoint an arbitrator within the time set forth above, the arbitrator appointed by the other party shall proceed with the arbitration and the award of such arbitrator shall be final and binding. The dispute shall be heard by the arbitrator(s) within 45 business days of the written notice for arbitration unless extended by mutual agreement between the parties. The arbitrator(s) shall render a decision within 20 business days of the last day of the arbitration hearing. Save as otherwise expressly provided in this Agreement, the provisions of the *Arbitration Act* (Alberta) (as amended from time to time) shall apply to any arbitration undertaken under this Agreement subject always to the Commission's jurisdiction over any matter submitted to arbitration. Pending resolution of any dispute, the Municipality and the Company shall continue to perform their

respective obligations hereunder. The decision of the majority of the arbitrators shall be final and binding.

The Company shall advise the Commission of any dispute submitted to arbitration within ten (10) business days of it being submitted and shall advise the Commission of the results of arbitration within ten (10) business days following receipt of the decision of the arbitrator(s).

23) **APPLICATION OF WATER, GAS AND ELECTRIC COMPANIES ACT**

This Agreement shall be deemed to operate as consent by the Municipality to the exercise by the Company of those powers which may be exercised by the Company with the consent of the Municipality under and pursuant to the provisions of the *Water, Gas and Electric Companies Act* (Alberta), as amended.

24) **FORCE MAJEURE**

If either party shall fail to meet its obligations hereunder within the time prescribed, and such failure shall be caused or materially contributed by an event of "force majeure", such failure shall be deemed not to be a breach of the obligations of such party hereunder, but such party shall use its best efforts to put itself in a position to carry out its obligations hereunder. The term "force majeure" shall mean any acts of God, strikes, lock-outs, or other industrial disturbances, acts of the Queen's enemies, sabotage, war, blockades, insurrections, riots, epidemics, lightning, earthquakes, storms, fires, wash-outs, nuclear and radiation activity or fall-out, restraints of rulers and people, orders of governmental authorities or courts of law having jurisdiction, the inability to obtain any necessary approval from a governmental authority having jurisdiction (excluding municipal governments), civil disturbances, explosions, mechanical failure, and any other causes similar in nature not specifically enumerated or otherwise specified herein that are not within the control of such party, and all of which by the exercise of due diligence of such party could not have been prevented. Lack of finances shall be deemed not to be an event of "force majeure".

25) **TERMS AND CONDITIONS**

The Terms and Conditions that apply to the Company and are approved by the Commission, as revised or amended from time to time by the Commission, shall apply to the provisions of this Agreement and to its performance as the context requires.
