Report Summary

This Bylaw establishes the fees associated with a number of the Assessment and Taxation information services provided by the City of Edmonton.

Report

The 2021 fees recommended for Council approval are set out in Schedule "A" to this bylaw. These fees are updated annually and remain comparable to other jurisdictions, based on a survey of eight Alberta municipalities. For the majority of property information services, fees reflect an increase of less than five percent over 2020, consistent with increases in the previous five years. Charges for staff assisted products such as historical searches, s.299/300 requests and new property account searches have been increased to more closely reflect cost recovery. The higher fees for staff assisted tax searches and certificates are intended to encourage the use of online service, with 99% of all searches and certificates being ordered through the

website. In addition, local improvement details, assessment details and other property and assessment information is available on the MyProperty site at no charge to the property owner.
