Green Leagues

WHERE NEIGHBOURS MEET  
and GREAT THINGS HAPPEN  
EDMONTON FEDERATION of COMMUNITY LEAGUES

**EFCL**

# What we know now

---

- Number of facilities
- Facility general usage
- Age of facilities (original construction)

# What we will learn through Benchmarking

---

- Facility size (m<sup>2</sup>)
- Annual energy consumption for each facility
- Annual energy consumption for entire Community League portfolio

# What we will do with that information

---

- Set city-wide reduction targets for all Community Leagues
- Monitor city-wide progress for all Community League facilities
- Target the least efficient buildings for energy audits and upgrades (CLIP to be leveraged for upgrades)
- Celebrate Leagues who have completed retrofits
- Illustrate the success of past projects
