

CR_6894 - Enterprise Systems Transformation Program Presentation

Financial & Corporate Services
City of Edmonton

Edmonton

June 2019

Slide 1

Agenda

Table of Contents

1. Enterprise Systems
2. Case for Change
3. Qualitative & Quantitative Benefits
4. Program Approach
5. Next Steps

Delivering Services From Systems to Services

Enterprise Systems are Foundational to our Municipal Operations

Without enterprise systems, we would fail to deliver resident services in today's world of technology advancement.

Enterprise Systems

Current State by the Numbers

Our Enterprise Resource Program Facilitates: **\$3 Billion** Annual Operating Budget
\$1 Billion Annual Capital Budget

Enterprise Systems

Current State Challenges

-  Isolated Systems
-  Costly Customizations
-  Fragmented Data
-  Complex Technical Environments
-  Increased Security Risks

Enterprise Systems

Our Evolving Digital World

Traditional Technology

Modern Technology

Technology Funding

Historical Realities

Prior focus was on maintaining current technologies

Limited investment in new digital technologies occurred

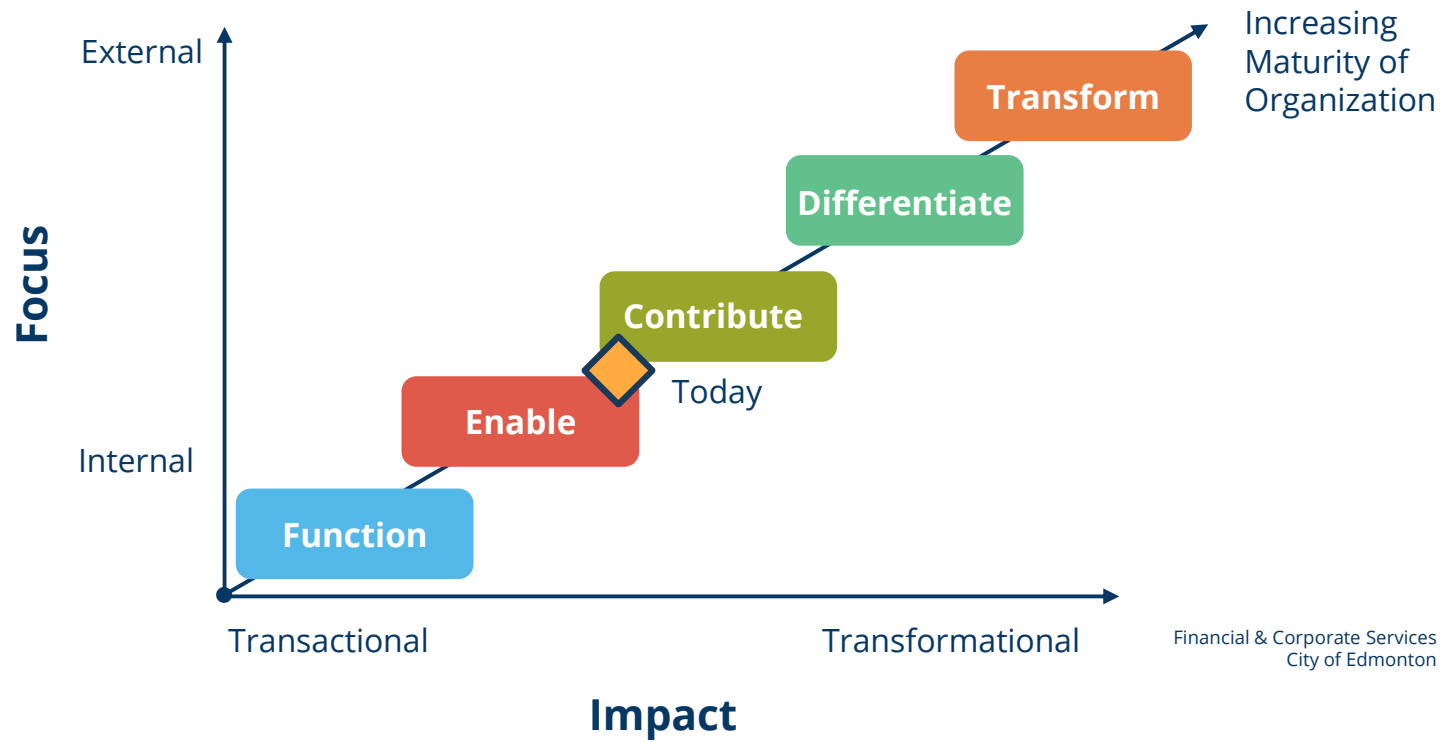

Repeated reduction in technology investment to accommodate corporate financial constraints and prioritization

End Result:

Many technology assets have been stretched beyond their planned useful life resulting in increased operational risks.

Enterprise Systems Organizational Maturity

Enterprise Systems Jurisdictional Scan

*“By 2023, more than **80% of the government’s digital implementations that do not build on a technology platform will fail to meet objectives.** Governments must **address their decaying technology infrastructure.**”*

~ **Gartner** | World Leader in Technology Research

Jurisdictions Undergoing Enterprise Systems Transformation Programs:

Edmonton

Slide 10

Case for Change Program Example

Case Study: Imagine Oliver, a City employee, who is processing registrations for programs.

1999: Oliver has to review a **paper form**, accept payment in **cash** and **manually** update the resident's information.

2019: Oliver receives an **electronic** notification that a resident has completed an **online form** and made **payment electronically**.

2025: Oliver will use **data and analytics** to **predict** registration volumes for various programs and **make recommendations** for new program planning.

Our systems need to meet future resident needs.

Case for Change

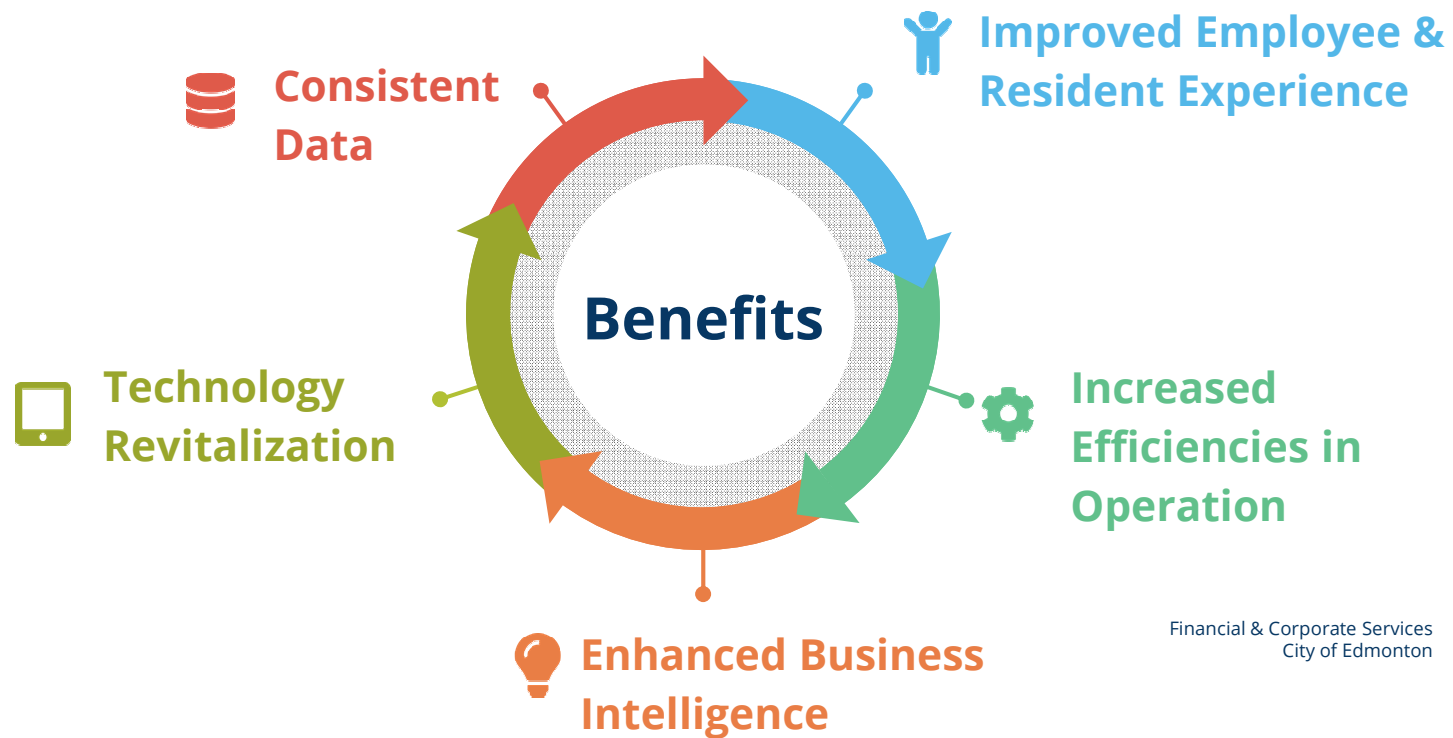

Smart City Edmonton

Modernized digital platforms enable us to be a smarter city.

Enterprise Systems Transformation Program

Qualitative Benefits

Financial & Corporate Services
City of Edmonton

Edmonton

Slide 13

Enterprise Systems Transformation Program

Quantitative Benefits

Estimated quantitative benefits are:

- Payback Period 7-8 years
- 6% Reduction in Total Cost of Ownership
- \$62 million Net Present Value

Based on the current assumption of a \$60 million program cost over a period of 4 years.

Slide 14

Enterprise Systems Transformation Program Funding Phased Implementation

Phase 1: \$30 Million

- Recommendation in the 2019 Spring Supplemental Capital Budget Adjustment to fund

Phase 2: ~\$30 Million

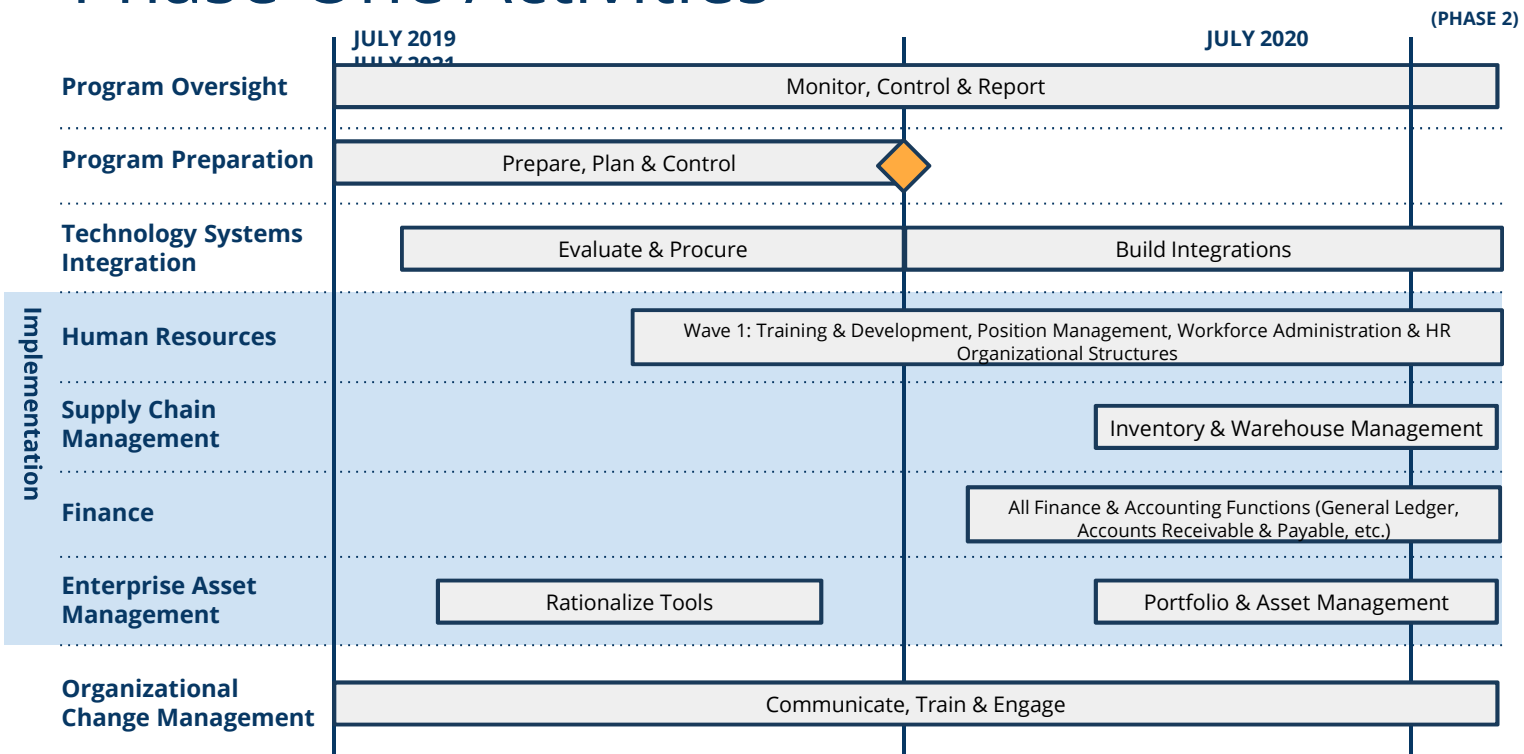

- An unfunded capital profile estimated at \$30 million will be submitted during a future Supplemental Capital Budget Adjustment

Total: ~\$60 million

Enterprise Systems Program Phase One Activities

 Council Checkpoint

Implementation

Edmonton

Slide 16

Next Steps Our Plan

1. Procure Single ERP Solution and System Integrator

1. Commence Phase 1 Planning and Implementation

Thank You
