## Sample ISO 37120 Indicator Benchmarking

## Percentage of Population Living in Affordable Housing

ISO 37120 Indicator 12.2

This threshold figure measures the percentage of a city's population that are living in housing that is affordable, defined according to what a given household spends on housing relative to household income. In Canada, housing is considered to be affordable when less than 30% of before-tax income is spent on housing.
